SUBJECT	Thanks!	
DATE	13th October 1994	

Dear Jason,

During Succot, the Secretary of State for the Environment announced the granting of our appeal thereby allowing planning permission for the NW London Eruv.

You were most helpful at the time of the Public Inquiry last November and there is no doubt that the example of Boston was well used by Lord Jakobovits and the point was taken by the Government Inspector.

We do still have an number of hurdles to overcome including the ongoing vehement opposition of some assimilated Jews who are now looking at private property rights as a means of obstructing installation of the Eruv. They have made such horrific claims about the dire consequences of there being an eruv that they now cannot afford to see one built as they would look ridiculous when people see the benign nature of it. It is a real problem to try and find a way of lowering them gently from their own petards!

I do want to thank you, and your colleagues, for you cooperation at the time which was *mai'ul umai'ever* and not only helped us practically but gave us a considerable moral boost.

Best Wishes,

David
