Dear David

re: Hendon + Golders Green Eruv

I was pleased to meet you and Rabbi Kimche yesterday evening when we discussed the above project and am particularly grateful for the very succinct clarification of the technicalities involved as affecting this proposal.

For the sake of good order, I confirm that it was agreed as follows:-

1. I will take an early opportunity of inspecting the entire perimeter in order to be able to assess and highlight those areas which may prove particularly problematic.
2. Following on this, we would prepare sketch proposals for the requisite posts, etc and initiate informal discussions with the local Authority Highways Engineer and Planning Officer -- the latter with regard to the posts which may be required.
3. You will let me have as soon as possible the 1:2500 OS plans of the entire area which I understand you have already obtained.
4. You will ask Rabbi Kimche to let me have as soon as possible the requisite definitions of the 'hardware' required to the posts and other connections to existing features and if possible obtain illustrations of existing items as have been used in the United States.

I look forward to hearing from you as soon as convenient in order that we may proceed to 'carry out' the initial stages as soon as possible.

With kindest regards,

Yours sincerely

Daniel Rosenfelder
