Dear Graham

Eruv

I would welcome your advice, please, on the following matter.

I have been involved in a local Jewish community project to erect an *eruv*, which is broadly explained in the following submission to Barnet.

We had been led to believe that the Public Works Committee can deal with the matter without reference to Planning. We want to avoid planning at all costs, as it will involve delay and provide a forum for dissent! As you can see from their last letter they are now insisting on an application to Planning. We have the support of the Leader of the Council, but I think I must muster suitable arguments to justify it being dealt with within Public Works only.

If you have any technical questions please speak directly to Mr. Alan Perrin (who is expecting your call) on 081-458 0036 or 0831 331776.

Please call me to discuss.

Many thanks,

David Schreiber
