Fax :- 081-202-4981

Dear Sir,

We are writing to express our support for the
env and hope that it will be granted planning
permission tonight.

The only valid objection for the committee to entertain
should be whether the poles and wires are obtrusive.
Most of the people who have lodged objections on
this ground are probably unaware that enviro already
exist on a small scale ^{in Hendon}, covering a few roads
at a time or a block of flats.

There is an enviro serving our own block of flats
but the only people who have noticed the wire
across the main entrance are probably orthodox
Jews. This can hardly be obtrusive.

The large satellite dishes people affix to their
properties are far more obtrusive than a few poles and wires.

Yours faithfully
Robert

Dear Cllr. Davis,

I write to support the planning application for the Eriv, most emphatically. Its usual impact will be negligible.

It is profoundly disappointing and disillusioning to find Councillors opposing the scheme for "demographic" rather than valid planning objections (I quote the report in *News & Tigh*, 12 Feb.). Both local N.D.s have been reported as in favour.

If Cllr. Soekin (same report) really behaves we should live as one, she should tell opponents of the Eriv so, as it is they who oppose it on the grounds that they want to return to the days when there were no fairs in the area — or at least no visible ones. Supporters of the Eriv

exclusively for any one ethnic
group or religion. It is a gross
— indeed grotesque — misrepresentation
to suggest that they do.

It does not behove any
Cormullos — particularly Jewish
ones — to pretend to blend
prejudice whilst hiding behind
euphemisms. Supporters of the
EW have felt it necessary to
lobby & petition in order to
counter the hysteria. This conscious
proposal has quite unexpectedly
provoked from those they had
thought were civil & rational citizens

On planning grounds — the only
relevant ones — it is your duty to
support the EW. Yours truly, Michael Isaac

Barnet House

21st February 1993

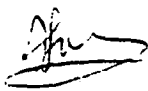

Dear Mrs. Greenspan,

We are writing to enlist your support for the eruv project which we understand is to be considered by the planning committee on 24th February 1993.

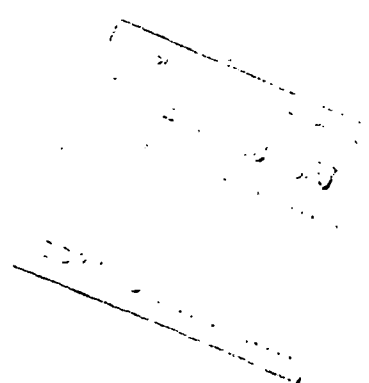

We are perhaps typical of the many families whose lives will be transformed if the eruv is allowed to proceed. We are in our early thirties and married with two young children. We are observant Jews and the existence of an eruv will add a most important facet to our enjoyment of Shabbat.

We would therefore urge you and your fellow councillors to grant the necessary planning permission to enable this project which benefits so many to proceed.

Yours sincerely,

Alan and Rosalind Gourgey

18th February 1993.

Dear Councillor Bunn,

I am writing to urge you to support the proposal for an Eruv at the Planning Committee meeting on February 23rd.

I am a single, orthodox, Jewish man who lives in your ward. I would welcome the opportunity, during the summer, to carry a book from my flat to the nearby Sunny Hill Park. I do not have a garden and it would be enjoyable to read in the sunshine. More importantly, I would have the opportunity to invite my friends with young children to visit me on Shabbat. Although I can visit them it is impossible to reciprocate on Shabbat at the moment.

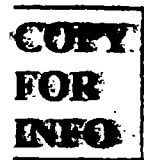

The addition of a small number of poles and wires really does not seem to me to inconvenience people. I have read in the local press that some people are concerned that the area might become a ghetto. This argument might be used to prohibit the opening of Kosher shops and restaurants. After all, if Kosher food is available, the area might attract Jewish residents.

Both this argument and that against the Eruv seems to me to be hard to sustain in a society which believes in freedom of expression, freedom of belief and freedom of opportunity.

I do hope you will be able to support the Eruv proposal next Tuesday. Thank you for your kind attention.

Yours sincerely,

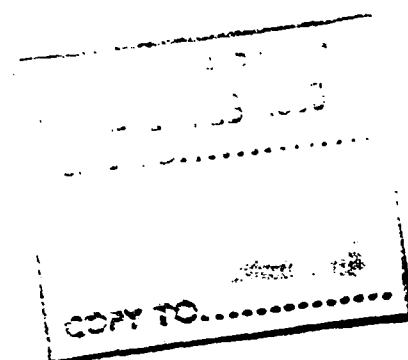

Jonathan Miller.

Dear Mr. Burn,

The adverse publicity which the "Enw" has recently received is very sad. I cannot help but think of the time that Cable T.V. was laid in Hampstead Garden Suburb. How many people wrote to the Council to complain about that? There are far more Jewish people in Barnet than there are subscribers^{to} the Cable T.V. Having an "enw" would be wonderful. Why can't London be like so many modern continental cities where

orthodox Jews can really enjoy their
Sabbath. Please could you support
us in this religious cause.

Yours sincerely

Dear Sirs

ERU

Please support the eru.

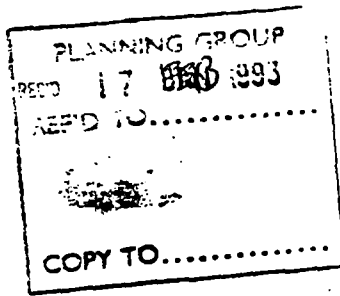

Jewish people in this borough have paid taxes and therefore are entitled to make a simple request. And it is a simple one. In a few months no one will notice a few extra poles but the effect for the Jewish community will be significant.

This should not be judged an emotional grounds but created purely as a planning issue.

May I urge you — please support the eru.

Yours faithfully

Dear Councillor Slocombe,

North West London Eruv

I write, on behalf of my wife and two young sons, to express the hope that you will be supporting the implementation of the Eruv at the forthcoming meeting of the Planning Committee on 24th February.

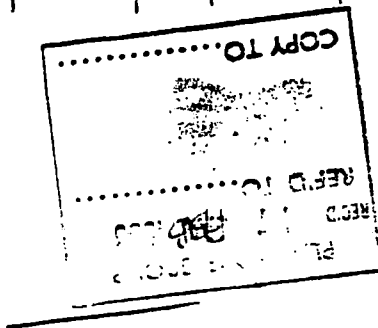

My wife and I are looking forward, in just over a month's time, to the arrival of a new child. We are, of course, very excited. It does, however, remind us that the new arrival will mean that we are once again confined to our home for the Sabbath period. I think that, by now, I need not expand upon the reason that is so; nor need I explain the real benefits an Eruv would bring to my family and literally hundreds of families in Hendon alone.

Yours sincerely,

Jeremy Shebson

Dear Ms Slocumbe

I am writing in order to make known to you my family's
(and especially my wife's) need for the "enu" and accordingly
hope that your support for the project will be given when
Voting takes place on 24/2/93 for planning permission for its
establishment.

Our family consists of 3 children all under 5 years of age,
2 of which cannot yet walk very far. For the last 5 years
my wife has been unable to go out on the Jewish Sabbath,
as being an orthodox family we have been unable to push a
pram in the street. Furthermore the children's grandparents
are also unable to see them for the same reason.

There have been many untrue comments made in the media
regarding the "enu" and I hope a trust that for the
sake of families like ours (not to mention the elderly
and infirm who also cannot leave their homes on the Sabbath)
that you will make all our lives that little bit more
pleasant.

Should you wish to discuss the above or ~~not~~ even meet
I should be most happy to do so.

Yours sincerely
Al Pearce

13th Feb. 1993.

Dear Mr. Bunn,

I am writing to you out of exasperation at the recent spate of negative publicity I have seen in much of the media. There are many people such as myself who will benefit enormously from the proposed envr and get very upset at the false and outrageous things said about the scheme. Exaggeration over the urban clutter that will be caused by the poles or the creation of a ghetto are not serious arguments to be made against the scheme.

As my councillor I urge you to please see the point of view held by substantial numbers of ordinary Jewish voters in the area: it really is a matter of great importance to me and my family. Please understand the great benefit it will have on the community of observant Jews in the area.

Please vote in favour of the 'Envr' next week,

yours sincerely,

F. Kelaty

Mr. Edward Bunn
(Councillor, Hendon Ward)
The Town Hall
The Burroughs
Hendon
London NW4 4BG

Dear Mr. Bunn,

Re: Meeting of Planning Committee on 24 Feb 1993

I write to you as a resident and voter in the Hendon Ward in connection with an application for planning permission for the 'Eruv' which I understand is being considered at the meeting of the Planning Committee scheduled for 24th February 1993.

I along with many others ask you to support that application. The structural features that will be visible to the public are so small as to be effectively unnoticeable. The benefit and pleasure to many thousands of Barnet residents will be considerable. Many large cities throughout the western world have had similar structural devices for many years without any problems.

Despite a clear explanation of the nature and purpose of the 'Eruv' in the planning application it appears from correspondence and articles in the local press that there is misunderstanding about it. Some of this seems to be deliberate, if not downright malicious. I am sure that you, along with the other members of the Planning Committee, will be able to see these kind of objections for what they are and approve the application.

Yours faithfully,

Hendon
London NW4 4BG

14 February 1993

Dear Mr Bunn

You will have received your own advice from planning officers, in relation to the merits of the planning application for the eruv. As a constituent in your ward, I would implore you to vote in favour of this application on 24 February, in order that our family and many hundreds more, in your ward, may benefit from the existence of an eruv in this area.

Without an eruv, the observance of our Sabbath is very restricting. We have a three-year-old daughter and our second child is due at the end of July. If the eruv is refused, my wife will be completely housebound on the Sabbath, until our second baby learns to walk. Surely you can sympathise with this position?

However, you will be concerned primarily with the planning criteria and, on this basis, the proposal is harmless, in visual impact terms, and safety of road users will, of course, be paramount.

Clearly, any argument from the objectors to this application must be weighed against the enormous benefit for so many people in your ward. We trust, therefore, that over one thousand people, who signed the petition in favour of the eruv in your ward, can rely on your support in this matter.

Yours sincerely

Dear Mrs / Miss Greenpan

Proposed Eruv

I wish to advise you that my family and I are looking forward to the eventual implementation of the Eruv in our area. It will improve the quality of our religious holy days, easing the burden of the restriction of carrying on these days. Specifically, we will be able to push our stroller enabling us to visit friends and relatives, which has been previously impossible on holy days up to now.

Our daughter is only two years old and has limited walking stamina. This prevents us being able to walk her to her grandparents and friends who live more than 10 minutes from our home. As the Sabbath holy days are the ideal time to visit family and friends, the absence of an Eruv restricts us. Indeed the erection of an Eruv would improve the quality and way of life for all observant Jews in the area as it has done for many in USA, Holland, Israel and Belgium.

We appeal to you and your colleagues to consider favourably the Eruv proposals. Having examined the arguments against it, they seem to pale into insignificance vis-a-vis the tremendous benefits that can be gained by young families and disabled who wish to observe the laws of orthodox Judaism and enjoy life at the same time.

I look forward to hearing a positive result from the meeting on February 24th.

Yours sincerely

Hendon
London
NW4 4BG

Dear Mr Bunn,

Re: Barnet Eruv Scheme

As a resident of your Ward, I am writing to ask you to use your vote on February 24th to support the Barnet Eruv Scheme.

I am sure that you have been made fully aware of the arguments for the establishment of the Eruv but I would be grateful if you would consider the following points when exercising your vote.

(a) The Benefits

I am sure that you are aware of the very substantial benefits which the Eruv will provide for the local Jewish community. Jewish law prohibits the carrying of any object outside the home from Friday sunset to Saturday sunset. The establishment of the Eruv will reverse this prohibition and will be of specific benefit to mothers of young children, who will be able to take out prams and young children and for the first time take advantage of the local parks on a Saturday afternoon, and to the elderly and infirm who will once again be able to live an outdoor life on Saturdays, being able to carry sticks and use wheelchairs in the streets. The benefits are therefore very great, but what are the costs?

(b) The Financial Cost

The Eruv will not cost Barnet ratepayers one penny but all costs will be entirely borne by the local Jewish community.

(c) The Poles

Much Press coverage has been given to the proposed construction of a small number of poles around the Barnet area in order to carry the monofilament wire which will constitute the Eruv. The unavoidable sensationalism of the newspapers has however often clouded the simple facts. The actual number of poles which will need to be erected will constitute a fraction of 1% of the current street furniture in the Barnet area. They will almost certainly go entirely unnoticed by the residents of Barnet, as will the wires, and I understand that all planning aspects of the proposals have been fully endorsed by the local town planners. Furthermore, the four poles which will be erected in Hendon Ward will be alongside the major carriageways of the Watford Way and the Great North Way and, as such, will not in any way affect residential dwellings. Given the innocuous nature of the poles, I cannot see any reason why the Eruv Scheme could be opposed on this ground.

(d) Who wants the Eruv

A recent petition in support of the Eruv Scheme received 3,333 names. There are furthermore hundreds if not thousands of people who did not have the opportunity to sign the petition but who would be extremely grateful to benefit from the Eruv.

There has been a great deal of controversy surrounding the Eruv issue, partly due to sensational coverage by the Press and partly due to the extremely active opposition by a small number of individuals. The basic facts are simple. It will cost nothing, inconvenience practically no-one and fundamentally benefit tens of thousands of Barnet voters. That certain individuals see fit to oppose the Scheme in the manner that we have seen can mean only that they have their own personal agendas which have little or nothing to do with planning issues or the good of Barnet residents.

Once again I would urge you to vote for the Eruv Scheme on our behalf.

Yours sincerely,

Anthony K. Manning

Feb 9th 1993

Dear Mr. Cohen,

I am writing to ask
for your support in setting up the
Eruv.

I have a young child who
cannot yet be taken out independently
on Shabbat. This prevents us from all
going out together as a family: the Eruv
would enable us to do this and still
adhere to Jewish law.

I feel that arguments about negatively
poles or about the Jewish community
needing to keep a low profile, are
irrelevant here. If the Jewish community
is confident, friendly and positive in the
way it presents itself to the community
at large - that is what counts. Thank you
for reading this. Yours sincerely,

Anne Rosten (Mrs.)

Proposed Eruv

Dear Mr Davies

As a long time resident of the Hampstead Garden Suburb ward I am writing to express the strength of my commitment to the proposed Eruv.

The Eruv will allow young mothers; elderly people who cannot walk without the aid of a support and people suffering disabilities requiring a wheel chair, all of whom have been completely house-bound on Saturday, to enjoy the use of the amenities offered by the Suburb.

I am certain that the beauty of the suburb will in no way be put at risk otherwise I would be loath to give the Eruv my support. Similarly I am sure that neighbourly relations between suburb residents will only be enhanced by the feeling that at last a small disadvantaged group will be able to enjoy that beauty every day of the week.

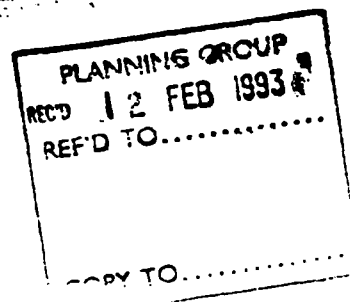

I sincerely hope that you will support the application at the forthcoming meeting of the Planning Committee on February 24th.

Yours Sincerely

Julian Goodkin

Dear Sir,

It is my firm belief that the institution of an Eruv will enable many orthodox Jewish families, particularly those with young children or handicapped relatives, more fully to observe & enjoy the Sabbath day. I believe further that it will in no way whatsoever cause any difficulties, aesthetic or novel to our fellow citizens in a tolerant multi-ethnic borough, the erection of a few unobtrusive poles can hardly detract from Barnet's fine facilities.

Therefore urge you kindly to use your good Offices to facilitate this important amenity at the forthcoming meeting of Barnet Council's Planning Committee.

Yours sincerely,

c.c. The Town Planning Dept

Dear Mr Bunn,

I am writing to ask you to vote in favour of the Barnet Eruv Scheme. It is, after all, a very minor planning matter which will not affect the environment or the majority of the population of Barnet, but will have an enormously beneficial impact on the lives of the local Jewish community.

Opposition to the scheme seems to be based around fears that a "ghetto" would be created by a few poles and wires. If you were to ask the residents of Washington or Strasbourg whether they live in a ghetto, they would think that you were mad. The vast majority of them would not even know that Eruvs exist in their cities.

The fact that this issue has become blown out of all proportion is a reflection of the anti-ethnicity and closet anti-semitism that exists in our otherwise egalitarian borough. Surely this is not a reputation that the Barnet Council would like to encourage.

On a personal level, my family and friends need this Eruv in order to be able to live normal lives on Saturdays; to be able to visit our neighbours, to enjoy the parks and facilities that the Borough provides, especially for children and the elderly.

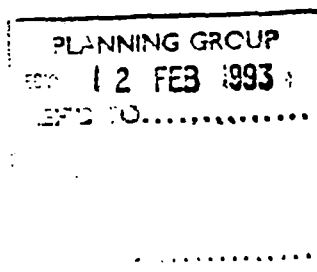

It may interest you to know that every one of the Jewish and non-Jewish residents of my block of flats that I spoke to has signed the Eruv petition. There is a wide-spread view in our area of Barnet that something which can benefit one part of the community without affecting the rest should not be opposed. These people are not the ones who write to newspapers, but they do have votes.

Thank you for listening.

Yours faithfully,

Sarah Manning

Dear Ms Greenspan,

re PROPOSED ERUV CONSTRUCTION

I am writing to urge you to vote in favour of the proposed Eruv at the forthcoming Planning meeting. The establishment of an Eruv would be a wonderful benefit to my own family as we have a 5 month old baby and an elderly mother neither currently able to get out on Saturdays. Our whole life style on this one day of the week when we are all together, would be so much enhanced as a family that an Eruv would really be one of the most significant events for us for many years.

Yours Sincerely,

MICHAEL KESZTENBAUM

Dear Mrs Greenspan

Re: Eruv Application

I write to ask you please to do your utmost to ensure that the application to erect an Eruv is successful. We have young children and it would be so wonderful to be able to go to Synagogue with them and get to see family nearby on the Sabbath. We hope that people will realise that erection of a few poles will not really affect them too much but should make an enormous difference to my life.

Thank you for your help

Yours sincerely Rosalind Altmann

Dear Mrs Greenspan
Re: ERUV

Please can I ask you to try to obtain approval for the Eruv. It would be so helpful to enable me to take my young children out on the Sabbath and I hope it would not prove an inconvenience to anyone. There has been so much fuss and hype about it recently but I don't believe it would be a big nuisance to anyone - just a big benefit to people like myself.

Thank you yours sincerely

15 July 1988

Messrs Zaichyk, Slonim & Bachrach,
Mizrachi Organisation,
81 Balaclava Road,
CAULFIELD 3161

Dear Sirs,

I refer to your letters dated 13 June, 1 July and 8 July 1988 requesting consideration to the establishment of a notional or symbolic wall within the City of Moorabbin.

The following approval is granted:-

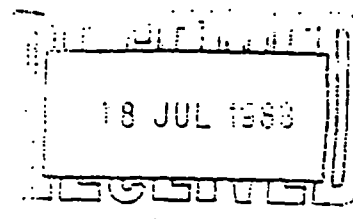

"To facilitate the observance of the Sabbath Laws by those of the Jewish faith residing in the City of Moorabbin and in particular by enabling those of the Jewish faith to carry in the streets and public places on Sabbaths and other Jewish Holy Days, within the notional walls formed by the special boundary (known as the Eruv) established in accordance with Jewish law, the Moorabbin City Council agrees to grant to Rabbi B. Zaichyk, Mr Benjamin Slonim, and Mr. Hans Bachrach, the Chief Minister, President and Member respectively of the Mizrachi congregation on behalf of the members of the Melbourne Jewish Community, the necessary rights to the Public Domain within the boundaries of the Eruv in the municipality of the City of Moorabbin. These rights are limited not to interfere with the use of the Public Domain by the City of Moorabbin or any person entitled to use it. These rights shall not prejudice the rights of other person or persons or groups or organisations."

Action has been taken to erect the pole at the corner of Barbara Street and Rowans Road to assist in defining the boundary of the symbolic wall.

Yours faithfully,

A handwritten signature in dark ink, appearing to read "J. L. Chubb".

Mayor Poole
London Borough of Barnet
Barnet Town Hall
The Boroughs, Hendon
LONDON
ENGLAND

Dear Mayor Poole

Re: Application for Eruv

I am advised that an application has been made to construct an Eruv in north west London within your Borough.

An Eruv has been in existence in the southern section of Melbourne for over four years and the City of Moorabbin is the largest Municipality within the boundaries of the Eruv.

Approval was granted for the Eruv to traverse the City of Moorabbin and attached is a copy of the relevant document. Obviously, I am unable to comment on the specific planning issues involved in your case. In Melbourne the Eruv consists of overhead power lines, several installed posts and natural boundaries.

I believe that some concerns have been raised in London as to the Eruv creating divisiveness, being a magnet for anti-semitic vandalism and an environmental threat.

Our experience does not support these concerns at all.

The Eruv has, I am told, basically been of significant benefit to some members of the Jewish Community and a non-issue for others.

I should add that I am not aware that any local authority within the Eruv has experienced any problems whatsoever since its establishment.

I trust that the information provided will assist your Council's decision making process.

Yours sincerely

Cr. Barry Neve

Dear Sir/Madam,

Concerning the eruv application, I

would like to make a number of points:

a) A simple count of letters for and against would be an unfortunate way for the council to decide on this application, especially as your first advert in the Hendon Times asked only for "objections". I notice that your latest advert (17/12/92) asks for "comments", which is better but shows the original wording was biased. Most planning applications are listed in the public notices section, but this application had a large half page box reader the front of the paper. There is talk in the borough that the chief executive is anti-eruv and that that may explain the above.

b) As I see it, most of the objections fall into the following categories:

- i) some people ~~some~~ consider the eruv physically obtrusive
- ii) some think it may cause more Jews to move into the area.
- iii) others think that one section of the community should not be allowed to do something that is only for them.
- iv) some less religious Jews do not understand the complex Jewish law on eruvs and regard the eruv as unnecessary or against the spirit of Jewish law.
- v) some ultra-religious Jews are worried that the strict ~~criteria~~ criteria for an eruv will not be maintained and that Jews will unwittingly break the Sabbath laws.
- vi) some Jews are embarrassed by the application. They think it will cause racism.

c) Why should the application be passed?

i) The poles & wires are extremely minor when compared with all the other lampposts, signs & telegraph poles in the borough, and the effect is much less than having a neighbour building an extension.

ii) It might or might not cause more Jews to move to the area but I don't know of any reported demographic shifts due to other eruv's elsewhere. Anyway, racism must not be condoned.

iii) The eruv is only of benefit to the orthodox community, and then only for those who wish to use it. It is however, HARMLESS in every way to everyone else.

iv) Regarding the necessity of the eruv, less ~~fewer~~ religious Jews are obviously not going to actively "use" the eruv. They should not however be allowed to deny it to those who wish it.

v) As for the ultra-religious minority, is it isn't 'Kosher' enough (i.e. ^{isn't} acceptable according to their strict interpretation of Jewish law) then they need not use it either.

vi) Concerning ~~racism~~ ^{racism}, it always has existed and is ~~it~~ exacerbated by economic depression. Racists don't need a reason.

vii) Orthodox Jews who are in wheelchairs, and young mothers with children in prams/~~pushchairs~~ will be the largest group to benefit from the eruv. Please don't let them down.

According to Jeremy Bentham and his theories of utilitarianism we should aim for the 'greatest good for the greatest number of people'. The irritation caused to some will be minor, the benefit to others will be immense. I commend the eruv to the council.

yours faithfully

John Palmer

Dear Mayor & Town Planning Committee:

It was with great pleasure that I took action some years ago which helped the members of Beth Jacob Congregation to celebrate the Sabbath more comfortably and meaningfully, simply by supporting their petition to erect an eruv.

The action was not without controversy here in Los Angeles, but the ultimate result was most gratifying. The fears expressed by those who were initially opposed to the eruv never materialized.

I hope that you will help the observant Jews in your community enjoy the observation of the Sabbath.

Sincerely,

TOM BRADLEY
Mayor

Dear Sir,

Re Ernv Application.

I am writing in support of the above application for an Ernv in part of the Barnet/Hendon area.

The difference this will make to the lives of young mothers with babies children who are unable to walk, and to people who are confined to a wheel chair, can not be imagined. It may seem difficult to comprehend to some, but if one is an observant practising orthodox Jew the freedom these "wines" will bring is truly remarkable.

As a person who has lived in Hendon for the past fifteen years, I hope my comments will be noted.

Yours sincerely

Rever Ross & family.

COPY TO.....

Dear Sir

ERUV

I understand that there has been some uninformed and some
sp. fit criticism of the proposed eruv in the borough of Barnet.

As a resident I would like to write in support of this
useful amenity which exists throughout the world. People who
do not wish to use the eruv or those who do not recognise its
validity will be unaffected by its existence. Those of us who
would make use of the freedom to carry on the Sabbath that the
eruv makes possible will have our quality of life greatly enhanced
by its existence.

May I request that you ignore the prejudices of those objectors who
are unaffected by the existence or otherwise of the eruv and only consider the
benefits to the users against the valid objections of any injured by its
existence. On aesthetic values the eruv pole will be no more of an
eyesore than the street lighting and telegraph poles that will all accept and
"do not even notice."

I trust the eruv will obtain consent at the meeting on 20th January.

Yours sincerely,

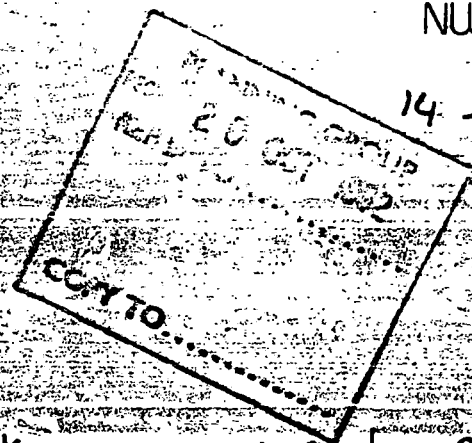

Bernie Drake,

Tel 203 5026

14 September 1992

Dear Sir,

"Erw"

I understand that the proposal for an Erw
has been submitted for planning approval and
that you have asked for the public to comment on
the proposal.

I hope that you will approve this proposal
which will bring much relief to many of your
constituents. There are many people who will
benefit from the erection of the Erw of women
like me with young children who are unable
to leave home on Saturday because they
cannot carry or push their children.

Even more important and less transient are
the benefits that it will bring to the
elderly and disabled members of the community
who require assistance in order to walk or

need to use wheelchairs. These people are totally housebound one day during the week on which they could otherwise feel fully integrated into their community. They cannot attend synagogues or visit friends and relatives. Their plight could be greatly improved by the creation of the Group which would cause virtually no disturbance to your other constituents but would have such an effect on your religious Jewish constituents.

I hope that this letter will help to convince you of the need for this approval.

Yours sincerely

Deborah Meyer

re: Eruv

Dear Sirs,

I am writing in order to register my overwhelming support for the proposed Eruv in the Barnet area. This will enable my grandparents, at present unable to attend Saturday services at the synagogue, to again become a part of the community. For, with an Eruv in place, they will be rabbinically allowed to use their walking sticks to help them on the half-mile journey to synagogue.

My mother will also benefit. At present, she must remain at home on Saturdays to look after my younger sister. With an Eruv in place, they could both move around, for my mother would then be allowed to carry my sister in the area of the Eruv.

I sincerely hope that such a simple and discreet scheme will not be rejected on planning grounds, as the Eruv can be made virtually invisible.

Looking forward to your approval on behalf of my mother and grandparents,

Benjamin Shaw

Dear Sir / Madam

It has been brought to my attention that you will be discussing the proposed plans for the use in the near future. I would like to put forward my view regarding the important matter.

My husband and I have three children. My husband comes from Antwerp, where there has been an Ennui for years and although it bothered him when he first came to England that he couldn't camp etc on the Sabbath, he always hoped that in time there would be an Ennui in Essex Green. However with the birth of our third child, who suffers from Phenylketonuria, we realised how vital an Ennui would be for our three lives.

My youngest child, Rachel cannot walk and therefore on the Sabbath we are literally imprisoned within our house. Together with my other children we take it in turns to baby sit, but it is very hard that we can never go out as a family on this day. One feels a resentment that

we are so restricted and in time this resentment is focussed on the handicapped child, although it is no fault of his.

My daughter cannot go to the school where all the children of our friends go to and yet as all the club activities take place on Saturday this is the day of ~~rest~~ for her.

It seems that London is very far behind in this matter as so many other cities throughout the world have an Erur. Last year when I was attending the Art Festival in Budapest with my daughter I met a woman from Ohio and she was shocked that whereas we have a large community here we have no Erur and yet although she comes from a very small community there has been an Erur for a number of years. When I look at my friends & handicapped children in Belgium and in Israel ~~the~~ children in these nations where there is an Erur can still enjoy and partake of so many activities that are vital in a Jewish life, yet my daughter has to miss out and it seems so unfair.

Please consider these points. Such a simple erection of an Erur could so improve the quality of lives of so many handicapped and elderly, ill, housebound people.

Yours sincerely

Mrs. Naomi Kravitz

Director of Planning
London Borough of Barking

Dear Sir,

Planning application BRV

I would like you to note my full hearted support for the above planning application. I am fully aware, having seen the installation of similar BRV in other countries that this does not involve any unsightly poles or wires. In fact any town where there are lights etc the few necessary extra poles will be totally blended in with the existing.

I am dismayed at the opposition by the Hampstead Garden Trust as I am aware from the plan that there are no installations to be erected on any area that the Trust is involved.

Once the BRV is in use no one will be aware that the installation is in existence as most boundaries are in existence already
Yours faithfully

Dear Sir,

I write in connection with the proposed construction of an Eruv in this area,

As a young mother, who likes to observe the sabbath, I have in the past experienced great problems of manoeuvrability with my child, the construction of an eruv would life easier for so many, more importantly the disabled who are often housebound over

the sabbath, because they are
unable to be pushed in wheelbar

As the construction is going to
blend with an already abundance
of street furniture, combined
with the fact that the
Hampstead Garden Suburb Trust
have no objections (as I am sure
you are aware this is unusual)
I hope that your planning dept
votes in favour of this construction

Dear Sirs

Re "Env"

I am writing to voice my support for the erection of the Env. I am sure you will have heard all the advantages that the Env will give to the Jewish people living around the Hendon area and in particular the infirm and mothers with young children.

Although such advantages are not aspects the planning department may have to consider, from a purely planning angle I can see no objections that can be sustained.

The Env will not be obtrusive or interfere with any buildings, trees or the general public.

I hope that you will support this planning application.

Yours faithfully

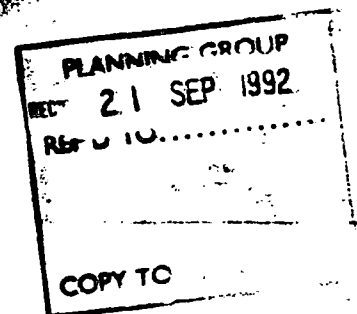

Stuart

18 September 1992

Dear Sir

As I am sure you are aware, the Jewish Community is trying to get approval from the Planning Department (we already have the approval of the Barnet Council Public Works Committee), for the establishment of a very important facility called the "Eruv".

Officers have a variety of views regarding the setting up of this facility, some are in favour of it, others show complete indifference, and a few others are vehemently against it. I would like to explain that the Eruv will in no way violate the non Jewish members of the public, either during or after its erection, and it will in no way affect them financially.

I am sure that you will appreciate that the Eruv is absolutely vital for all practicing Jews. Young parents with small children, the old and disabled etc, can only benefit by this construction.

The Jewish community as a whole is very concerned about the outcome of this vital issue, and it hopes that as Chairman, you will be able to use your considerable influence to safeguard that this inoffensive yet vital motion is passed.

Yours sincerely

Trevor Gee

Dear Sir,

Re Eruv

As the father of four married children, all of whom have children not yet able to walk any reasonable distance, I feel encumbered by myself to ask you to support the Eruv which I understand will be considered at the Planning Committee on the 11th November.

All our married children live in Golders Green / Hendon and the existence of an Eruv would cause no disadvantage to anyone living in the Borough but would enable my family to be kept together on the Sabbath.

As you will appreciate we are all orthodox and are delighted that the United Synagogue has proposed the Eruv. I have read the objections raised by certain members of the Council which to me smell of some racist bias and I employ you and your colleagues to vote for something which has only benefit and has no disadvantage whatsoever.

Dear Sir,

Re: ERUV

As the father of a young family, I implore you to support the application for an Eruv to be considered on 11th November 1992.

The benefits of the Eruv both to my family and to the community at large, most importantly for the elderly and the infirm, are such that it would be a crime if the application were to fail. Most residents in Barnet would not even notice the Eruv and may just consider that a few extra telephone poles have been installed. The application has no impact on the environment but will have a great impact and will make a substantial difference to the lives of the community at large.

Yours faithfully,

 Stephen Goldberg

Dear Sir,

I'm a Belgian student from Antwerp who is following a three year course in London. Antwerp has got an eruv for almost a century and there has never ever been any objections from both Non-Jewish and Jewish communities. There is no reason why London which has a much bigger and older community than Antwerp shouldn't have its own proper eruv.

For foreigners like me who are used to have an eruv, it's very difficult to face and to get used to the fact that there is no eruv in London.

Meanwhile, I'm looking forward hearing from you as soon as possible regarding the final decision about the eruv.

Yours sincerely,

Dear Sirs,

re : "ERUV"

I understand that the above matter has now moving to your department for planning approval.

The "Eruv" is an extremely important issue for large numbers of ordinary religious Jews of all ages. In particular, it will make the Sabbath much more comfortable and pleasurable for young mothers and elderly people by allowing them to carry within the boundaries of the Eruv.

very much hope that you will acknowledge the benefits to your local Jewish community of having an Eruv made by giving it planning approval.

Yours faithfully,

PETER KORN.

Dear Sir,

Re ERUV

In response to the notice in the London Times about the proposed ERUV, I write to say that I most vehemently and strongly SUPPORT the proposal for the erection of ERUV when it is considered by the Planning Committee on 11th November.

It will provide a much needed facility for observant members of the Jewish faith who wish to observe the Sabbath, as it should be, with their families and friends who live in the locality. It will enable us to carry items such as keys, umbrellas, books and the like when we visit our families and friends on the Sabbath, and so enjoy the day in comfort. Last year my ~~own~~ cousin from OTTAWA was soaked by the rain when staying with us on the Sabbath because she could not carry an umbrella - she was utterly amazed that we had an ERUV - they have had one in OTTAWA for years. I can see no detriment to anybody from the ERUV, and certainly no objection to it can be made on planning grounds.

I should be most grateful if you could bring this letter to the attention of the chairman and members of the Planning Committee.

Yours truly
Norman Furst

Dear Sir

Re Eruv

We Jack and Geraldine Yardley understand you have an application for a Eruv in the London Borough of Barnet.

Jack Yardley is disabled and the Eruv would enable him to go out on the Sabbath in his wheel chair and would add to the quality of his life. We can see no objection on planning grounds to the granting of permission for this eruv which will not interfere with the normal use of roads or cause any expense or inconvenience to the Council and the inhabitants of the Borough

Yours faithfully,

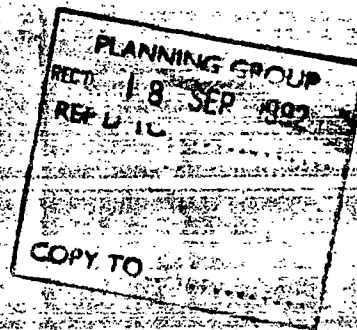

Jack & Geraldine Yardley

The Planning Officers
The Planning Department,
London Borough of Barnet
7th flr. Barnet House
1255 High Road
Whetstone
London N20 0EJ

Ladies and Gentlemen:

I wish to express my support for the proposed Eruv to be established in the borough if planning permission is granted.

As a mother of two small children, I would find life much easier on the Sabbath were there to be an eruv. It would mean that I would be able to carry my youngest child when we are going on a longish walk. It would mean that my friends with babies could pop in for tea on the one day when they have time! It would mean that my friend who spends occasional spells in a wheelchair would be able to get about on the Sabbath and feel that feeling of being part of a community.

The eruv would cause no more disturbance than the equivalent length of overhead telephone wires. There should be no more reason to say "no" to it than to ban overhead phone lines to people's houses.

Yours faithfully

Dear Sir

ERUV PLANNING APPLICATION

I am writing to urge Barnet Council to approve the Planning Application for the North West London Eruv.

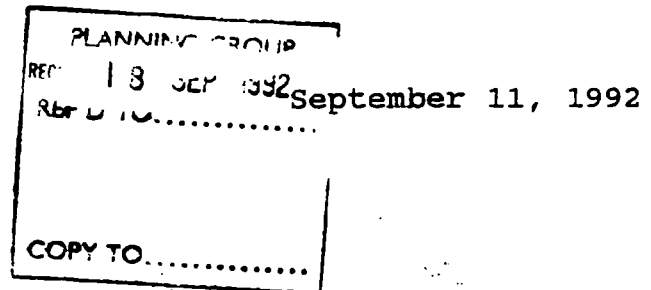

In my view there are no planning reasons to turn down this application. The Eruv's impact on the environment will be negligible. All that is at issue is a total of under 70 poles and a few hundred yards of wire. The benefit of the Eruv to the thousands of Barnet residents who will use it far outweigh any the small addition that the Eruv's "hardware" will make to existing street furniture. The Eruv planning application should, therefore, be approved.

Yours truly

September 15, 1992

Dear Sir,

I am writing to you as a concerned ~~resident and mother~~ of London NW11. It has been brought to my attention that permission for a local "eruv" is needed from the planning department.

I would like to urge you to endorse the proposal with your heartfelt support. As must be well known to you by now, it is expressly the weaker elements in society who stand to benefit enormously from the "eruv": the elderly, the disabled, and the mothers of young children, who cannot afford to employ regular babysitters.

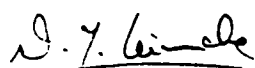

The Jewish community in England has enjoyed benefit and generosity from the spirit of tolerance and equality that has pervaded these Isles for many centuries. In turn, they have given of their best to contribute to a just, well functioning and blossoming British society.

The request to build an "eruv" is a totally innocuous one; no one in general society will even be aware of its existence, let alone be negatively affected in any way. Whereas the Jewish community as a whole stands to gain a greatly increased social good.

It has always been the hallmark of a just society, that the stronger elements protect and enhance the quality of life of the weaker elements. Please ensure that the needs of all your constituents, and in this case, particularly the disabled and frail Jewish residents, will be taken care of.

No one stands to lose, and many thousands stand to gain.

Thanking you in advance for your co-operation,
Yours sincerely,

Mrs. Via Kimche

September 15, 1992

Dear Sir,

I am writing to you in response to the advertised call for comments in the local press about the proposed eruv. I wish to express **my strong and full support for the proposed eruv**, and request that you approve the planning application.

I am a rabbi of a young and active orthodox Jewish congregation in the area, and as such I receive **hundreds of requests** from members of my congregation for the eruv. It is a facility which would greatly ease the lives of so many elderly and infirm people, as well as mothers with infant children. It will enable people to participate in synagogue life on the Sabbath, which their disabilities had previously prevented.

Those poles (and wires between them) which are required for the eruv are **no obstruction or inconvenience** to anyone, while being of great value to those who can benefit. There can surely be no objection to the eruv on planning grounds, and I hope that you will also find no difficulty in approving the application.

Sincerely yours,

Rabbi Alan A. Kimche

Dear Sir

ERUV

I am an orthodox Jew and have lived in the Barnet area all my life, and I am writing today in support of the Eruv which is due to be considered by your Planning Committee within the near future.

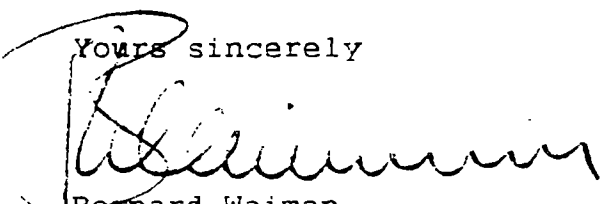

We have four children who are now passed the age where pushing them on the Sabbath has any relevance, nevertheless I hope that you will consider this application favourably because I know that this will enable many people to enjoy the Sabbath fully as a day for the family. The Eruv would also make life somewhat easier for my elderly mother who lives some distance from us but also within the proposed boundaries, and who would be able to carry which she cannot do at present.

I cannot believe that there are any serious objections from an environmental point of view, a factor that particularly concerns me as I live right on the Heath Extension which is one of the most beautiful spots in London, and which I am as anxious as anybody to preserve.

I am sure that if the proposals are implemented, the benefit to family life within our community would be widespread and the adverse effects would be minimal and largely unnoticed.

I hope that we will have a favourable result from your Committee.

Yours sincerely

Dear Sirs,

"ETW"

I am writing concerning the proposal for the 'etw' in the area. The 'etw' would not interfere with anybody's normal activities, but would allow mothers with babies to take their children out on those Sabbaths and holidays when they would otherwise be prevented owing to their strong religious beliefs. There are many other examples which can be quoted. Suffice it to say that on planning grounds I can see no objection. Let London catch up with other international cities!

Yours faithfully,

Oliver

Dear Sir or Madam,

I am writing regarding
the United Synagogue Eruv ~~Committee~~ proposal.

I am very much in favour of the
Eruv and believe that it would be of great
use to the elderly and young in the
orthodox Jewish community, who are numerous
in Barnet.

I also believe that the Eruv will not
impinge on anyone else and that are no
objections on planning grounds.

Yours faithfully

Jonathan Warrman

Dear Sirs

ERUV

I write concerning the above. While I am not Jewish myself I have during the past two years come into much contact with Jewish Orthodox people. I have seen first hand the difficulties that they face as a result of being unable to carry on the Sabbath. As a resident in the London Borough of Barnet I can see not objection whatsoever to approving the Eruv which would make life so much easier and would have no negative effects on any of the other residents of the Borough.

I therefore request that the Planning Commission give their approval to this project.

Yours sincerely

Dear Sirs

ERUV

I write concerning the application for the Eruv.

In the early hours of this morning my wife gave birth to a baby. While we are of course extremely happy about the new addition to our family we are extremely apprehensive at another 12 months of self-imprisonment on Saturdays as a result of us being Orthodox Jews. As we are unable to push a pram or carry a baby one of us is effectively housebound at all times with the child until he can walk.

While this is of course of great interest it is of interest to all residents of the London Borough of Barnet who are Orthodox Jews themselves who either have young children, are elderly themselves or are disabled. I would ask that the planning committee give there approval to this project as I can see no rational reason for objecting to something which would alleviate hardship for so many people at no cost to the public.

I trust the Planning Commission will give this project their approval.

Yours sincerely

15th September 1992

Dear Sir,

North West London Eruv

I am writing in support of the proposed Eruv which I understand is coming before your committee for consideration in the near future.

The arguments in its favour which persuaded Councillors to approve it in June have not changed. The potential benefits to the old and infirm as well as to the mother with a number of young children continue to be important reasons why I trust your department will support the proposals. While the press comment following the June decision has been overwhelmingly favourable, there were one or two adverse comments. I imagine that others have pointed out to you (and to them) that the fears voiced were illusory. Rather, I feel sure that you will demonstrate your goodwill by ensuring that the proposals go forward and thereby assist those who will be able to benefit from the Eruv.

Thank you for your help,
yours truly,

189.

Dear Sir.

Re Eruu Planning Permission.

My wife and I, and our 3 children
would be delighted if the Planning
Committee approves the construction of the
Eruu at Friday's meeting.

The Eruu would make life happier
and easier for thousands of Barnet
residents, of all ages, without, in any way
causing inconvenience or discomfort to
other residents. It would be completely
unobtrusive. Those who do not wish
to make use of the Eruu will be free to
ignore it, and the thousands who will use
it, will become happier Barnet residents.
We would urge you, please to approve
the Eruu.

Yours faithfully,
Ruth and Masi Cohen

To whom it may concern in the
Planning Department re: Eruv

RECEIVED
15 SEP 1992
CITY OF LONDON

Dear Sir/Madam

I am writing ~~in~~ response to
your notice in the Hendon & Finchley Times
about the Eruv. I wish to bring ^{to} your attention
how important the Eruv will be for the
observant Jewish community in this area
- who are, as you know, a sizeable
community. It will enable the elderly
& mothers with young children to
participate fully in communal life on our
Sabbath - an obvious advantage in these
days of widening generation gaps &
social breakdown.

The proposal has been

passed by a great majority in the Council
it will have no financial or maintenance
repercussions for the public purse & will
have negligible impact on the average
person in the street.

I can think of no other proposal
before you that could cause, at one & the
same time, so little disruption to the
public & ^{bring} such great benefit to so many
& at no cost to the taxpayer.

I urge you to consider this
proposal most carefully and hope you
will find that you will support
the proposal for the Gov.

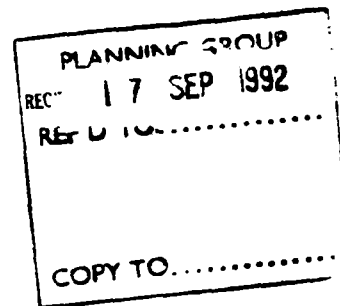

Yours sincerely,

Caroline Jessop

Whetstone N20 0EJ

Dear Sirs,

Eruv

Further to your call for comments on the above subject I am writing to stress how important it is for myself and my family that the above scheme obtains your approval. I have several young children who currently are housebound for a good part if not all of Saturday and effectively are denied the opportunity of enjoying the recreation that the Eruv would allow. Indeed the Eruv would completely alter the character of the weekend transforming it from a period of restrictive confinement at home to one that would be the highlight of the week and would allow the family to all go out together as a unit with the obvious inherent benefits.

I personally can not see any objections on planning grounds - a few effectively invisible wires certainly can not practically interfere with anyone in any manner whatsoever.

Yours faithfully,

G. Borgenicht

London N20 0EJ

Dear Sirs

Re: Eruv Proposal; Planning Permission

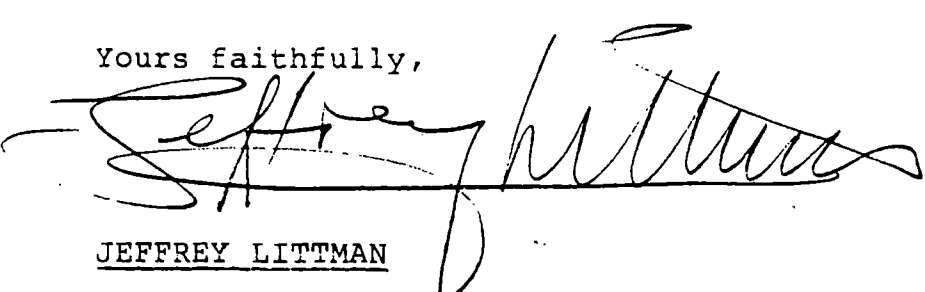

I write to ask that the Planning Committee note, first, that I and my family wholeheartedly support the proposal to erect the necessary components to complete an Eruv in the Borough; we are among the many Orthodox Jews who will benefit from it directly in being enabled to perform acts on the Sabbath without contravening religious law and practice.

Second, I understand that there has been some opposition, more vocal than numerous; but it seems to come from people, Jewish and otherwise, whose objections are not sincerely based on any ground of amenity nor as the result of any cost/benefit analysis. I am sure that the Committee will not allow itself to be influenced by any other than planning considerations.

I am personally able to provide input relating to that criterion: I have travelled in many cities in the USA and sometimes I have had to be present during the Sabbath. This has always been where there is a large Orthodox Jewish community which has been allowed to erect an Eruv, with its consequent benefits. In no case was there any detraction from the visual amenity; the minute nature of the intrusion meant ipso facto that there was no measurable degree of obstruction of the city's space; and the non-Jewish population, if they knew of the Eruv's existence at all, were unable to perceive its presence as an everyday phenomenon. To the Jews, however, it was a matter of great convenience; they took pride in their city's ability to provide for their freedom of religious expression. Had they been refused permission to erect an Eruv it would have been a matter of local shame, for Jews and non-Jews alike.

Considering the insignificant magnitude of any legitimate planning argument against the Eruv applications, I would urge the Committee to accept that, questions of freedom of religious expression apart, the benefits of an Eruv to those who will similarly be proud of it in Barnet would be so great that they should have no hesitation in granting the necessary permissions.

Yours faithfully,

JEFFREY LITTMAN

Planning Application Erev.

Dear Sir Madam.

I have just moved to London, and while I was talking to a few people, they brought up the subject of the planning application of the Erev for the Jewish community.

As most people know, the only people who write into the councils about planning applications, are normally people who want to protest.

I therefore find myself in a strange situation of writing to yourselves to pledge my support for the aforementioned planning application.

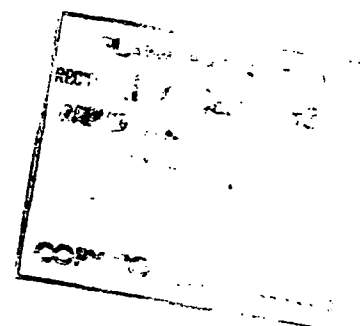

I can't see any valid reason for the planning application to be denied, as it will have very little effect on the landscape.

The reasons I support the application are it will enable the old, disabled, and people with young children to practise their faith, while at present they might be restricted in doing so. Also it will further harmonise the relationship between the council and Jewish community.

Yours faithfully

Jonathan Dubow

Dear Sir,

Re: Eruv Application

I am a resident of Barnet and I urge you and your fellow councillors to give their full support to the application for an Eruv in Barnet.

The Public Works Committee has already approved the project in principle and it will clearly be an important benefit to many in the Borough.

The technical erection of the Eruv is straightforward and poses no environmental problem. No views will be impaired, no hazard is caused and there is no detracting from the character of the neighbourhoods through which the Eruv will pass.

I hope that you and your fellow councillors will judiciously and democratically allow the Eruv project to go forward.

Yours faithfully,

Jeremy Crown

Dear Sir

Re: Eruv

I am a resident of the London Borough of Barnet having my home at the above address.

As a father of a young family I would just like to make you aware of the fact that the erection of the proposed Eruv will immeasurably enrich the Jewish suburb both for my own family and for numerous other families within the Borough.

In addition, the Eruv will be of great assistance to the elderly and disabled who are often presently left house bound on the Sabbath because of the absence of an Eruv. Accordingly, I would urge your committee to approve the Eruv Planning application when it comes before you as I do not believe that the erection of the Eruv will in any way cause any damage or inconvenience to the general public - while its erection, as indicated above will be of great benefit to many Barnet rate payers.

Yours faithfully

Dear Sirs

Re Proposed Eden!

I am writing to you to request that you vote in favour of the proposal for an ERV in North West London.

There is considerable support for an ERV which will be of great assistance to many disabled and frail people in the community, as well as young parents.

I can see no objection to the ERV on planning grounds, and I trust that it will receive the overwhelming support of the Planning Committee when the vote is taken.

Yours sincerely

R. Moss

Eruv

I am writing in connection with your committee's forthcoming consideration of the eruv proposal.

The eruv will provide a valuable amenity to elderly and frail people, and to young parents, since it will enable the use of a wheelchair + prams on Saturdays outside the confines of one's own home.

As well as being a boon to many residents of the Borough, the eruv will be a detriment to nobody. It will cause no inconvenience and no nuisance, nor will the poles and wires be unsightly. I see no objection on planning grounds. The sponsors of the eruv have undertaken to finance the erection and maintenance of the eruv, and they will receive donations from people such as myself and my wife.

Yours faithfully

16th September '92

Dear Sir,

As a young Jewish Religious Mother, I am anxiously awaiting the erection of the "ERUV".

For the past nine years since my first child was born I have been more or less housebound on a Saturday as it is forbidden to carry a young child out of the house on the "Sabbath".

My day would be completely changed if I were able to go

to Synagogue, the park or
visit friends. The "ERUV"
would make this possible for
me.

Please help!

Mary Frank

Yours sincerely

16 September

Dear Sir or Madam

This is to request that planning permission be granted for the proposed 'Eruv' in the Borough of Barnet.

Whilst there seem to be no reasons for refusing permission on planning grounds, most demarkations existing already, its approval and erection would greatly benefit those disabled and frail members of the community who need support for complete mobility.

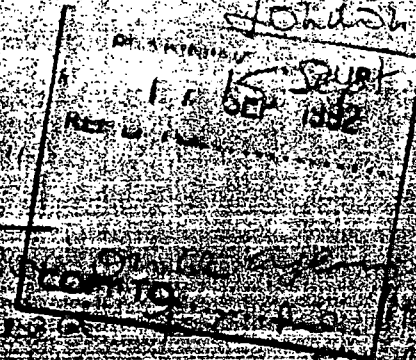

Yours faithfully,

H. Levene

46 Taios St. Cressen
London NW10 4TH

I am writing to you to express the great need for a Jewish Eruv which would enable my father to walk with us on the Sabbath. We are all so very trapped on a day when everyone else can get out of their homes.

The Eruv is being overdue and we urge you to go ahead with putting it into action now so that we can all look forward to our Sabbath being made a more pleasant day for those less fortunate. I see no objection in planning grounds, so please, please our Community

Yours faithfully,

Dear Sirs,

Eruv

I write strongly to support the above proposal to which I see no objection on planning grounds. It would be of immense benefit, particularly to young parents and the elderly and disabled in the Jewish community without doing any harm to anybody at all. In these circumstances, Officers and Councillors can do active good and contribute to community relations and should take this opportunity to do so.

Yours truly,

ARNOLD ISRAEL

For the attention of the Planning Dept.,

Dear Sir/Madam,

As I understand that the subject of the 'Eruv' is being discussed, I felt I must write to express how much the establishment of an 'Eruv' would mean to me.

I have 4 children, with the youngest still a baby. At present therefore, we are unable to go out on Saturday as a family, which is ironic, as it is the one day when we are all together. It would be tremendous if we could go and visit family and friends, without leaving part of the family behind.

I have lived in the borough of Barnet for many years and consider myself a responsible member of the borough. If I felt that the construction of the 'Eruv' would in any way be detrimental to my fellow residents, I would not support it. However, I have studied the detailed plans and am comfortable in the knowledge that it will cause no interference to the general public.

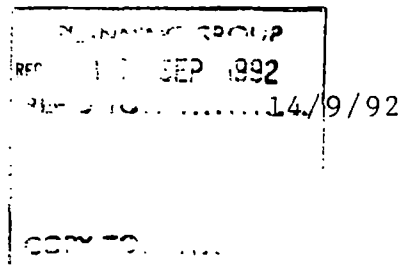

I sincerely hope that you will be able to see your way to support this venture.

Yours faithfully,

Dear Sus,

RE:

At this important time, as you make your decision about whether to allow the ECUV to be established or not, I am asking you to please consider favourably the request which at little or no cost to the general community will facilitate my wife and young baby to walk on the Sabbath without foreclosing it as well as many of our friends with young children who are greatly restricted for long so by the lack of an ECUV.

I would hope that a few extra poles and trip wire will not be taken as grounds for refusal. I am asking permission and very much look forward to hearing that the application has been accepted.

338

12 ALBA GARDENS

LONDON NW11

15th September 1992

Dear Sirs,

RE: ERUV

I am writing in connection with the above in order to express my support for an Eruv. The reason that I feel it is so important for an Eruv to exist is in order to help many people in our Jewish community to be able to go out and participate in all aspects of Jewish community life.

I personally have an aged mother who is at the moment virtually housebound on the Sabbath. I feel that elderly and disabled people as well as people who are reliant on wheelchairs, walking sticks and the like will gain tremendous benefit from having an Eruv in our area.

I sincerely hope that by writing to give my fullest support to the Eruv scheme that in some small way I will have participated in making the Eruv an actuality.

Yours faithfully,

G. Cohen

I should be most grateful if you would give permission for the "Erav" to be erected. I know from personal experience how necessary it is. My late husband was confined to a wheelchair for many years & was unable to go to synagogue on the Sabbath & Holy Days because it was not permitted to take a wheel chair to synagogue on those days without an Erav, much as he would dearly have liked to go. Unfortunately he is now dead, but there are very many people like him still alive. Also my daughter cannot take her baby to synagogue on the Sabbath & has to sit at home alone whilst her husband goes, although she would also dearly like to join him & there are very many of her friends in the same situation.

Thank you very much for your consideration.
Yours faithfully

Dear Sirs,

Re: Eruv

I understand there is a request for planning consent to the erection of posts for construction of the above. My information is that these are very few in number and unlikely to have any detrimental effect on the environment.

Accordingly I am most supportive of the proposal which will assist in providing much needed facilities within the area. I would urge you to give the plans your full consent.

Yours faithfully,

Ephry Eder

'ERUV'

We write as an orthodox Jewish family to state that we do not object to the planning of the Eruv. We have a handicapped grandchild who at the moment cannot leave his house on Shabbat and gets very distressed when his brothers and sister leave to go to the synagogue and to visit us. It is a terrible strain on the family and upon the completion of the Eruv a great burden will be lifted and this little boy will be able to go out and participate in the Jewish Shabbat.

Dear Sirs

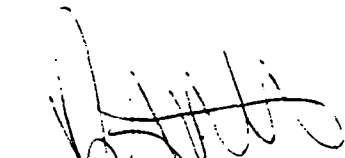

Re: The Eruv

As a community charge payer and resident in the London Borough of Barnet I am writing to confirm that I totally support the proposals to erect an Eruv within the Borough. .

I also confirm that I can see absolutely no objections to the Eruv on planning grounds.

I shall be very interested to see how individual councillors vote in this matter.

Yours faithfully

Dear Sir / Madam,

Our fight for The Gru in recent months seems to have moved forward. It will provide many benefits for many orthodox members of the Jewish Community. The frail and disabled as well as mothers and young children will no longer be confined to their homes. I simply can't understand any reason for opposition & especially for reasons based on planning grounds. Let our efforts not be wasted. It is on you we depend for The Gru to finally exist.

Thanking you for time in dealing with this issue.

Yours faithfully

N. Matyas.

Dear Sirs,

ERUV

Further to my previous letter I should like to reiterate how valuable the proposed Eruv would be to the large Jewish community in the Borough. It would enable young mothers to take their babies around with them on Saturdays whereas they are currently confined to their homes. It would also greatly benefit the elderly and disabled to enable them to carry any sticks or other walking aids.

I do not believe it would cause any obstruction or problem for the general population of the Borough and I trust that you can give the proposed your sympathetic consideration.

Yours faithfully

S Cohen

Dear Sir/Madam,

Eruv

I am writing in support of the planning application for the erection of the posts necessary for the establishment of the Eruv. The Eruv would significantly enhance the quality of enjoyment of the Sabbath for many Sabbath-observant members of the community in Barnet, in particular, families with young children requiring pushchairs or prams, old or disabled people needing wheelchairs & mobility. I find it difficult to understand why the erection of a few posts and wires should meet with any objection but would like to reiterate that I, my family, and practically (if not) all of my friends and acquaintances, have no objection and indeed strongly support the establishment of the Eruv.

Yours sincerely,

David Fenner

DEAR SIR,

PROPOSED ERUV IN GOLDERS GREEN & HENDON

We refer to the recent advertisement in the Hendon and Finchley Times inviting comments regarding the proposed Eruv.

We would like this scheme to be approved as it would be of great benefit to many residents in the borough.

Furthermore we can see no objections on planning grounds regarding the erection of various posts and wires, as these would be of a similar height to existing lamp-posts and telephone poles and thus blend in to the environment.

Yours Faithfully

ERUV

Dear Sir/Madam.

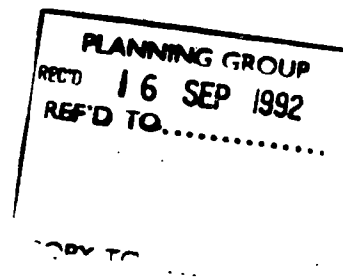

We are writing to give our full support to the propopsal for putting up an eruv. The eruv is something that benefits many and harms none. The disabled, elderly, and frail in the Jewish community as well as young parents would gain immeasurably from having an eruv. We can see no objection on planning grounds and would therefore hope that you will give planning permission to this project.

With thanks for your attention.

Yours sincerely,

REC'D 16 SEP 1982
REF ID: A10.....
COPY TO:.....

Dear Sir,

I am moved to write to you concerning the upcoming decision of the Planning Department about an "eruv", requested by the Jewish community. I would like to explain my reasons for asking your support for this request.

An "eruv" would greatly increase the enjoyment of life for many people. Elderly people who use canes, the disabled who use wheelchairs, the young mothers who have children that cannot yet walk (and use prams) would all be given an opportunity to get out of their homes, attend synagogue, walk about, and socialize on the Jewish Sabbath. It would lessen the sense of social isolation, which they sometimes do feel.

An "eruv" would revolutionize the world of young couples, who currently accept that if they have a baby, they need to remain indoors for one day in the week. They would be able to take walks as a family, instead of one-at-a-time, with one parent confined to the home. I can well remember how elated I was when my son started to walk, and we could finally go out of the house together on the Sabbath! Imagine that joy multiplied by all the young Jewish couples who have or will have babies!

An "eruv" does not affect the general community at large. Indeed, I doubt that anyone not directly affected by it's use will even be aware of it. I hardly think that the average resident would even notice the few additional poles which are required around the eruv perimeter. Since, it does no harm, and only does great good, I ask that you speak to your fellow officers, and urge them to support the request for the "eruv".

Sincerely yours,

Aron Balkin

September 15, 1992

Dear Sir,

I am writing to you about the proposal for an eruv in the Hendon/Golders Green area. I am a new mother (my daughter is now 12 weeks old), and I will be tremendously affected by the new eruv.

As a mother, the prospect before me was that every week, on the Jewish Sabbath, I would be confined to my flat, feeling cooped up, with no way to get out with my baby. No way of attending synagogue, going for a walk, or to the park, or even just outside my door for a breath of fresh air. The frustration is compounded by the fact that this is part of the most important day in our week!

But there is a solution! The eruv would change all that. I could attend synagogue to pray, go for a (very proud!) walk with my baby, go to a friend's house. For me, and loads of other mums like me, it would make a big difference to our lives.

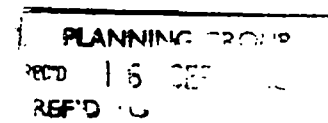

The Planning Dept. has to consider the issue from it's own angles, I am sure. As far as I am aware, this will harm no one, affect no one other than the Jewish people whom it serves, and be of greatest benefit to the (significant) minority of Jewish people in the eruv area. Please, give the eruv your support. Explain to your colleagues how much this could mean to me, and thousands like me.

Thank you for reading this, and for supporting our cause.

Sincerely yours,

S. Balkin

Dear Sir/Madam,

Re: Planning Permission for the Ever

I am writing to urge you to grant planning permission for the Ever. It will be of inestimable value to people like us who have small children and a baby and also to people like my mother who is severely disabled and unable to leave the house without a stick, a Zimmer frame or wheelchair depending on whether she has a "good day" or not. It would greatly enhance our quality of life if we were able to attend synagogue on the Sabbath and visit family and friends in keeping with the spirit of the day. I understand the "load furniture" would not interfere with pedestrians or driving members of the public and would blend in unobtrusively with other road posts etc. The scheme is funded by the Jewish Community thereby not encroaching on others.

Yours faithfully

re Eruv

PLANNING
YES 16
REF 16
COPY TO

Dear Sir / Madam,

As a mother with three young children, and a daughter who has an elderly disabled mother

I feel very strongly that planning permission for the Eruv should be given. It will enhance the Sabbath of many orthodox Jews by allowing them to be together on Sabbath.

When my children could not walk at all, ~~and the~~ being tied to the house all day especially in the summer was torture. It would have been so nice to go to a park or visit friends. Likewise, my mother could not come to me, so she spent a lonely day at home on a day that should be for families.

I believe all that is required of the Eruv are some 30/60 poles to be placed at relevant points of the perimeter and ~~some~~ where necessary, fine wire strung across. Most people would not notice the difference between these and ordinary telegraph poles which can be seen throughout the Borough.

I cannot believe that people would find them offensive and they would make such a huge difference to a large number of constituents in the Borough.

I have waited five years for an Eruv in N.W. London and look forward to hearing of its imminent arrival.

Yours sincerely

Eve Feibiger (Mrs)

Dear Sir/Madam,

I am writing with reference to the planning committee which will be meeting shortly to discuss the "Error". As a mother of 3 small children it would be wonderful to be able to go out on our Sabbath instead of being stuck at home all day and not being able to go out as a family.

If the "Error" was given planning approval it would make a great difference to our lives. We cannot see any objections to it on planning grounds as it will benefit one section of the community and will not affect or harm any other section.

Thanking you in advance for all your help.

To - The planning Department.....

Dear sir or madam,

I am writing to you as a poll tax
payer in your borough to express my strong support of
the eruv project, which your department is considering at
this time.

I should like to explain that as a young mother of two
children the establishment of an eruv would greatly
enhance my sabbath, enabling me, to go out with my
family & participate in synagogue services which are so
important to my children's formative educational years
- ante not only for myself but also for the many
elderly & disabled Jewish people in the borough
for whom the eruv could enhance their sabbath day
& their lives generally enabling them to get out to
socialise & pray in their synagogues.

I do hope you will look favourably on the eruv
project and grant planning permission for this
wonderful Scheme.

yours faithfully.

Dear Sir,

Re ERUV

I would like to tell you how helpful having an Eruv would be to so many people, particularly the elderly (e.g. my mother) who have to be transported in a wheel chair, and babies (e.g. my grandchildren) in prams. At present this cannot be done as we are Observant Jews.

There is already an Eruv in a number of cities abroad and, in fact, when I was shown one it was so unobtrusive that at first I failed to notice it.

Please give Planning permission for the Eruv: your support, especially as it will be at no cost to local citizens and will make life easier for so many.

Yours faithfully

C. Cohen

Dear Sirs,

I am writing to express the wish that the EMU proposed should be approved. To have the EMU would enhance the quality of life of many frail and disabled people in the Borough, & be of great help to parents of young children.

I am strongly in favour of the EMU being installed, & I have no objections in planning grounds. I hope approval will be granted.

Yours sincerely,
Silvia Brodie

Whetstone,
London, N.20.

Dear Sir,

I understand that you are considering the application for the creation of an Eruv at your meeting next Friday.

I can well understand that this request must seem to you eccentric and even bizarre, but it is firmly rooted in thousands of years of Jewish practice and custom. The creation of an Eruv makes life much easier for the orthodox adherents of Jewry.

This is a community who are amongst the most respectable in the country. Their standards of ethical and moral behaviour are very high and they bring up their children to follow in their footsteps. The creation of an Eruv really cannot do anybody else any harm and city authorities in other parts of the predominantly Christian world have allowed their creation.

Rose and Joe Freedman were my first cousins and, if they could speak on this motion, I feel sure they would ask that the Eruv be permitted as a memorial to the hard work they put in for the borough over so many years.

Yours sincerely,

Derek Taylor.

Dear Sir/Madam,

Re: ERUV PLANNING APPLICATION

I am willing to express my support for the proposed Eruv for the Northwest London Area. As someone who lives in the area I can see no objection to the erection of the necessary poles etc. required for its construction. In fact I think it is a positive benefit to a major section of the community whose quality of life will be greatly improved by it. As a Barnet Community Charge Payer I have been extremely dismayed by the exaggerated and unfair criticisms made of the Project which is in truth but a small and unobtrusive construction at any given point in any area. I trust that you appreciate my position and I hope that the Planning Committee will approve the scheme

yours sincerely,

F.S. KELATY.

Dear Sir,

Re Eruv

I am writing in support of the Eruv. This concept will help to improve the quality of life of orthodox Jews within the area of Golders Green. It will allow mothers to take their young babies to synagogues, visit friends and pushing prams. It will allow older people to carry medications without desecrating the Sabbath.

I can see there can be no objections on planning grounds as it will be totally inobtrusive (almost invisible). There are only 300 metres of "wire" required in 11 miles. There will be no maintenance or installation costs on the borough as it will be installed and maintained by the Jewish community.

I hope that you will be able to give the Eruv planning approval.

Yours faithfully R GGT

Dear Sirs

Re: ERV - PLANNING DEPARTMENT

Please put my letter forward for the ERV
Planning Department to pass the motion for Planning
permission for the ERV to be erected. The wires
attached to the polling would not disrupt anything,
or would not cause an obstruction or nuisance.

So many people would benefit from the ERV,
as you probably are no doubt aware many
disabled people who cannot walk unassisted
without sticks, & young mothers with infants
could all go out on the Sabbath.

Yours faithfully

September 14th 1992

Dear Sir/Madam,

RE: ERUV

As the new Community Director of Hendon Synagogue, I am writing to support the creation of an 'Eruv' in the Barnet area.

An Eruv is required by Jewish law in order for Orthodox Jewish people to be able to carry, push wheelchairs and prams within its boundaries. The creation of an Eruv in Barnet would enable the members of our synagogue who are wheelchair-bound, as well as young parents not only to attend the synagogue, but also to visit family and friends in the area on the Sabbath, thus enabling them to feel more a part of the community.

Since the Eruv would not be noticed except by those who require it, I can see no objection to it on planning grounds.

I sincerely hope that you will permit the creation of an Eruv in Barnet, which will prove to be a model in Britain for other local authorities.

Yours faithfully,

Nicky Goldman (Ms.)

Dear Sirs,

Eruv

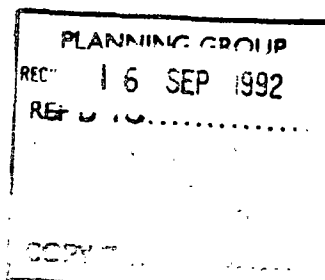

I write to express support for the Eruv planning consent application. Such a project will not only satisfy a long felt need among the area's orthodox Jewish community but will represent and symbolize a significant degree of inter-community harmony and understanding. As such it will be an effective response to the racism that is regrettably so evident today. There are of course precedents for the Eruv in other European cities. This being so, I know of no reason why your department, or indeed anyone, should object to the proposal, it being clearly understood that financial responsibility for the construction and maintenance of the Eruv would fall upon the Jewish community.

Yours faithfully
Lionel Blumenthal

Dear Sirs,

RE: ERUV

We are writing with our comments on the proposal for a North West London Eruv.

When our children were very young, we were not able to take them out on the Sabbath in a pram or buggy: this effectively meant that one of us had to spend the day at home. All practising Jewish families with very young children are in the same position. An Eruv would give them freedom to go out, attend Synagogue and generally to enjoy the company of others on the Sabbath day.

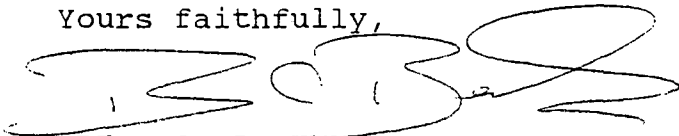

The Eruv would also enable disabled and elderly people to be taken out in a wheelchair or to walk with the aid of sticks, instead of being confined to the house on the Sabbath.

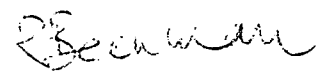

Accordingly, if an Eruv were to be erected, it would improve the quality of life for practising Jews on the Sabbath and enable them more effectively to enjoy it to the full.

We understand that the works required for the erection of the Eruv would be minimal and unobtrusive and would not disadvantage anyone. On the other hand, the Eruv would be a major benefit for a large number of people. We see no objection to it on planning grounds.

We are members of the Golders Green United Synagogue, and the proposal is enthusiastically welcomed in our congregation.

Yours faithfully,

Dear Mr. Chairman,

As I am sure you are aware, the Jewish community is seeking approval from the Planning Department (having already won approval from the Public Works Committee of Barnet Council) for the setting up of an important amenity known as the 'Eruv'.

Needless to say, the Eruv does not in any way impinge on the non-Jewish public - neither in construction or in cost. However, officers are divided on the issue: some are in favour, others are indifferent but a few are vociferously against.

One might think that the cause of this opposition is due to a lack of understanding that the Eruv is needed by all practising Jews. It is essential to young parents and their children, to the disabled, the frail and the elderly. However, dark mutterings from certain quarters about it being "time to look after the 'indigenous population'" suggest that this opposition smacks of something rather nasty, something emotive rather than logical.

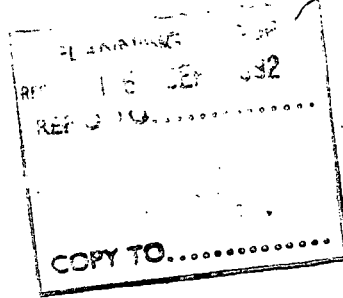

Naturally the community is very concerned and it is hoped that in your privileged position of Chairman, you will be able to use your considerable influence to ensure that this harmless yet vital motion is passed, without besmirching the fine name of Barnet in full view of the world at large.

With many thanks,

Yours faithfully,

Keith Shenkin

Dear Sirs

RE: ERUV

I write in support of the planning application being considered by your Council and submitted by the United Synagogue Eruv Committee being a proposed amenity for the North West London Jewish Community. An Eruv is in place in all major cities in the world and London is the only exception.

It is needed by all practising Jews and it is particularly essential to young parents and their children, to the disabled, the frail and the elderly who are otherwise confined to their homes on Saturday because of the religious restrictions which apply but which can be mitigated by the erection of an Eruv.

I hope the necessity for the same can be made clear to all the Committee and in an age of religious enlightenment I would hope and understand that the needs of the local Jewish community can be understood and the application passed particularly as it will not be at any cost to the wider community and will not infringe anybody's rights.

Yours sincerely,

Dear Sirs,

We are writing to ask you to support the planning application this week for the establishment of an Eruv in North West London. As orthodox Jews we are very conscious of the huge difference this will make to families with babies who at present cannot go out on the Sabbath, being unable to push a pram or buggy. For disabled and frail elderly people, the Eruv will be a great bonus and we as a community in Barnet should be doing all we can to help the elderly of the Borough.

The community is bearing the cost. The erection of the Eruv can hardly be noticed. We have travelled to many cities around the world where there is an Eruv and no one is conscious of it.

We urge you to support this planning application.

Yours sincerely,

Lira and Robert Winston

Dear Sir

RE. ERUV

I wish to inform you that I see no objection on planning grounds in having an ERUV, in fact it will be beneficial at least for the following reasons. No doubt there are other

To allow elderly & disabled to go to the synagogue on Saturdays in wheel chairs, people who attended services all their lives when they were in good health & independant.

To allow young parents to take their children in prams to the synagogue on Saturdays. At present one parent is denied going for services. Children also need to go out.

It is necessary that an ERUV which will be a help to a lot of people, be approved.

Thanking you -

Yours faithfully

RE; ERUV

Dear sir,

My name is Tammy Morris, I am twenty years old, an orthodox Jewess, and the mother of a three month old baby. Since my baby obviously cannot walk anywhere yet, I am totally housebound from sunset on Friday afternoon till sunset on Saturday night. Being young, with a large circle of friends this is very restricting.

Our Sabbath is a day of rest when traditionally the focus is on spending time with ones family, since we have no Eruv I am unable to do this and would be very grateful if you would give your support to this project to enable mothers like myself to get out at the weekend.

As I am sure you are aware by now the building of the Eruv would entail the erection of various posts around the North London area, these posts being no less noticeable than telephone posts or street lights and surely causing no harm to their environment.

I am aware that there have been various complaints against the erection of the Eruv, but feel strongly that these have no basis from a planning point of view, and weighed up against the reasons for its instigation I feel confident that we will gain your support.

Yours expectantly,

T. Morris

13th. September, 1992

Dear Sir,

ERUV

Further to your advertisement in the Hendon Times, I am writing to advise you that I see **no planning objection** to the Eruv.

It would add a very important facility to a significant minority without adversely affecting other people and I am therefore hopeful that you will approve the planning application.

Yours sincerely,

David Schreiber

The Chairman of the Planning Committee,
Barnet Council,
Planning Department,
7th Floor,
Barnet House,
1255 High Road,
Whetstone, N20 0EJ

Dear Sir,

Eruv in Golders Green

I refer to the planning committee meeting scheduled for the 11th November 1992 which is considering the question of the setting up by the local community of the Eruv. I am a father of two children, one aged 3½, the other aged 20 months, and with my wife expecting a further child in March, the benefits to me of the Eruv are clear for all to see. We are unable to go anywhere of any distance whatsoever with our children on the Sabbath and the erection of the Eruv would permit us to visit family and friends in circumstances that would otherwise not be possible.

I therefore implore you to support the application for consent as it's benefit to both me and most of the members of the local community will infinitely outweigh any concern that may be raised in objection to the proposals.

Yours sincerely,

BRIAN RABINOWITZ

Dear Sirs,

'ERUV'

I understand that you are dealing with an application to instal an ERUV in our district and would like to support this proposal and trust that it can be speedily passed by your Department and that installation will follow as quickly as possible.

This ERUV will be of inestimable value to help the many elderly and frail people in the area, and particularly the mothers with young children who wish to take them out in the pram and also to attend the Synagogue Services on Saturday mornings.

Many thanks,

Yours sincerely,

J. Lass

Dear Sirs

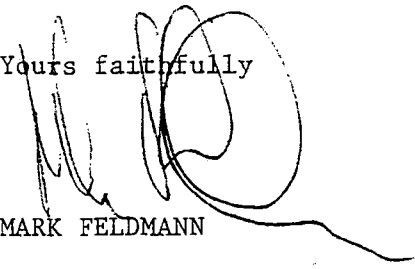

RE: "ERUV"

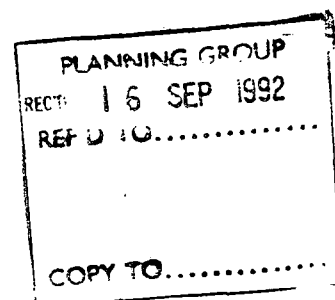

I write on behalf of myself and my wife to confirm our total support for the construction of an Eruv. We have both lived in Barnet since childhood and as committed Jews confirm that the Eruv is both necessary and vital for proper Sabbath observance by orthodox Jews. This is particularly the case for families with young children and also elderly or disabled people who would all benefit immensely from the Eruv.

I further confirm that we have no objections whatsoever on planning grounds and various people I have spoken to both Jew and Gentile are of the same mind.

I therefore urge upon you and upon all planning committee members to give their support to the Eruv.

Yours faithfully

Dear Sirs,
North West London ERUV

We have recently been married and have moved into the Hendon area.

As observant Jews, we would find the proposed ERUV a considerable benefit and enhancement of the Sabbath day, ^{both} as a young couple and (hopefully) with the prospect of young ones in the not too distant future.

In addition, the elderly or handicapped will be assisted by the ERUV insofar as they will be able to carry walking aids etc.

Since we can think of no inconveniences that the unobtrusive ERUV will cause, we should be very grateful indeed if you would give to proposed construction of the ERUV your most favourable consideration.

Yours faithfully

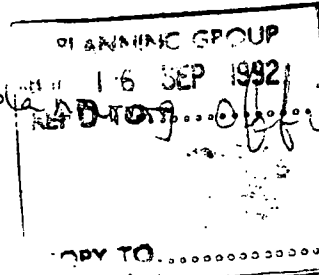

Paul and Susan Simons.

14/09/92

Dear Sirs,

re: ERUV.

I am writing to request that the proposed ERUV installation for the Hendon Barnet & Finchley area be implemented.

This would be a great boon for young mothers with young children, who would be able to satisfy their need for religious guidance in their lives by being able to go to synagogue on the Sabbath themselves by being able to transport their children, who are too young to walk, and by being permitted to take them by pram.

Also, as a doctor of medicine, I am aware of many frail and elderly people who would love to attend synagogue on the Sabbath, but are unable to do so, because they are not permitted to carry sticks or other walking aids on the Sabbath.

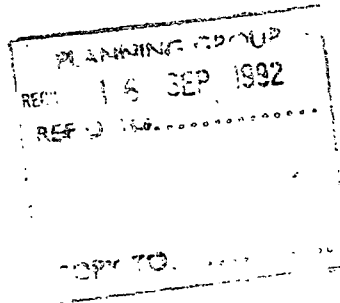

To sum up, I consider the installation of the proposed ERUV would be a great boon for the community, and make a lot of deserving people happy, by allowing them to have the benefit of desired religious guidance.

Yours sincerely,

David Wolfson

Dear Sir,

re ERUV

In view of the imminent consideration of the proposed Eruv by your department, I would like to voice my support for the project. As orthodox Jews, my family would find that the Eruv enhances our life-style on a Saturday by doing away with certain inconvenient restrictions arising out of the Sabbath regulations.

I see no environmental or planning grounds for detracting from the obvious benefit to us and many other Barnet residents. Many cities have found an acceptable way of constructing an Eruv and I am sure that Barnet will not fail where so many others have succeeded.

Yours faithfully,

Dear Sirs,

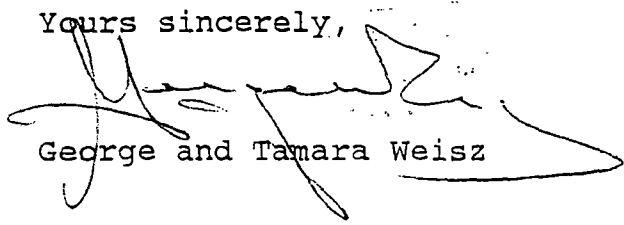

Re: North West London Eruv

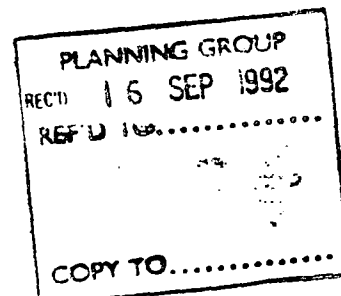

We understand that you are considering an application to allow an "Eruv" to be established within the London Borough of Barnet.

We are writing to express our strong support for this and to ask you, when considering this application, to bear in mind that this would enable religious elderly, wheelchair-bound people and young families to be able to get out of their homes and move around freely on the Sabbath. As we have a young family ourselves we feel the lack of this very strongly at the moment.

We have visited several towns around the world which have the benefit of an Eruv. These have been designed and set up in such a way as to be unobtrusive and virtually invisible and are of no detriment to the local amenities. We feel sure the same would apply to the one being proposed here.

Yours sincerely,

George and Tamara Weisz

22nd June 1992

Dear Sirs,

Re: Eruv

I am writing to express my support for the establishment of an "Eruv" within the London Borough of Barnet.

Having had an elderly father whose main pleasure was to be able to go to synagogue on a Saturday morning to attend services with his family and friends, and having seen him deprived of this as he became too disabled to walk, I feel very strongly about the need for this Eruv. It will ensure that not only the religious elderly, but also young children and their families are not trapped in their homes for the whole of the Sabbath, which in the summer can be a very long day.

Please give this matter your sympathetic consideration. Eruvs have been set up in many towns all over the world. They are virtually invisible to anyone who doesn't know they are there and are of no detriment to the local amenities. I am sure the same would apply to the one being proposed here.

Yours sincerely,

Mrs. E. Shalev

Dear Sir

Re : ERUV

My family and friends have many orthodox Jewish relatives and friends that live locally and are prevented from leaving their houses for 25 hours every Sabbath as they are young mothers with babies or invalids that are dependant on a wheelchair.

We hope and pray that you will agree with us that there can be no objection on planning grounds whatsoever. Indeed having lived abroad temporarily in areas with an "Eruv" unless one was an observant Jew one would not even be aware of its existence.

Yours faithfully,

Dear Sirs,

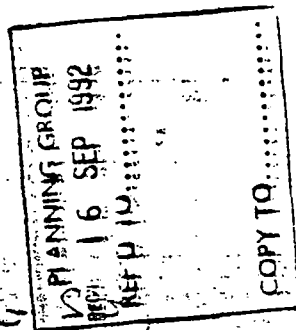

I am writing in support of the Eruv because although it will not effect me personally, I do think that all the fuss about the visibility of the poles is ridiculous. I have been in other places where an Eruv exists - Montreal - Toronto - Melbourne - and you really have to look for it to even see it. So if it helps people and, as I understand it, there is no cost to the Council, I see no valid reason for any opposition to it.

Yours faithfully,

S. V. Kleiman

re: "Eruv" de NW4 & NW11

Dear Sirs,

In common with many Christians in Hendon, I would like to express our support for the erection of an "Eruv" in this area, for the benefit of our Jewish Brethren. There is no substantive reason for denying the application on planning grounds. On the other hand, its existence would make the lives of observant Jews much easier. In our multi-ethnic borough we must always extend the hand of friendship and understanding to those of other faiths. To refuse permission could only be seen as anti-semitic.

Yours faithfully,
E.M. Davy

Dear Sir,

I have been privileged to live within the Borough of Barnet for most of my life and the creation of an Eruv is going to enhance the quality of life for many people who are aged and infirm and who live within the Borough.

Furthermore, it will also provide an opportunity for young families to get together and enjoy the Sabbath with parents and grandparents, which I am sure you will appreciate is something to admire in these days when the strength of the family unit is so much at risk.

Please give whatever support you can to the proposals which are being considered by your Planning Committee on the 11th October and in this way, provide for a small section of the community, a tremendous advantage without in any way affecting the interests or enjoyment of life of the community at large.

Yours sincerely,

Dear Sir,

ERUV

I am writing you this letter as a very concerned member of the Jewish community in the Borough of Barnet, with elderly parents-in-law who experience great difficulty in walking.

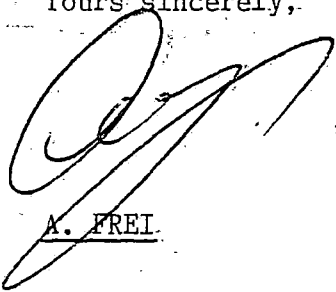

As I am sure you will know from literature which has been circulated and publicised in the local Press, the Eruv which is to be considered by the Planning Committee on the 11th November next, is essential for persons who are orthodox members of the Jewish faith and who are severely restricted on the Sabbath without the opportunity of having an Eruv.

I am sure you will appreciate that this is one of many cases where an Eruv would be of tremendous assistance in improving the social requirements of elderly people in the area as well as many others who, regrettably, are inflicted with impediments which prevent them from walking and thus prevent them from being able to get out on the Sabbath.

I trust you will be able to consider these matters at the meeting which is to take place in November and, hopefully, over-rule the objections which have been raised by others which do not appear to have any merit behind them, other than a vindictiveness against the Jewish community.

I am sure you will also be aware that the creation of an Eruv will in no way adversely affect any section of the community within the Borough.

Yours sincerely,

RE: ERUV

Dear Sirs,

The eruv is of utmost importance to the orthodox Jewish Community. As a family with young children, we, (particularly the women) are basically housebound. So are all the disabled who rely on wheel-chairs and if someone with babies has a parent who is ill, on Shabbat they will have to ask someone else to look in on them. The Eruv will make so many peoples' lives so much nicer and easier. Let this council move with the times and be like other great cities of the world ie N.Y., Antwerp, Toronto and many others.

Please Say yes. Thank-you
Mr & Mrs. Y. Benmayer

17/9.

13/9/92.

Dear Sirs

Re: ERUV

I am writing once again having already written to the Public Works Committee in June to express support for the Eruv and to ask for your help and assistance in ensuring that permission is given for the Eruv. As a parent of young children it would be a big bonus and of course many elderly and frail people in the community need this facility of the Eruv.

Thanking you.

Yours faithfully

J. S. BAKER.

Dear Sirs

APPROVAL OF ERUV

I am writing to urge your Committee to pass plans for the Eruv.

This is your opportunity to show the Jewish Community that your Committee does not hide behind some of the truly veiled anti-Semitic comments but has the courage to vote in favour of the eruv which will make a very real difference to the lives of observant disabled

P.T.O

and elderly Jewish people and
mothers with young children who
are housebound on the Sabbath.

Those of your Committee who are able to
be totally objective will have seen for
themselves the hypocrisy in the front
put forward against the emv.

For very little effort on your behalf, you
could make a very real difference
to the lives of many people.

Please say "yes" to the emv.

Yours faithfully

September 13, 1992

Dear Sir,

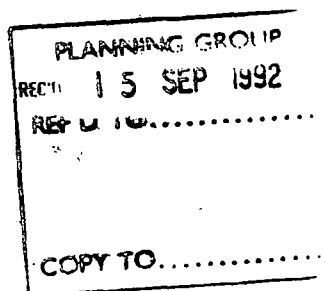

ERUV

In response to your request for public comment in regard to the proposed construction of an Eruv in Barnet, I would like to express my whole-hearted support for the project. It is difficult to overestimate the importance of an Eruv to orthodox Jews. Many people who are now consigned to their homes on the Sabbath - because they have young children or because they are disabled - will be able to get out, to go to Synagogue or just to visit friends. The Eruv will be a great liberation for them and it seems perverse that while many other cities with large Jewish communities (eg New York, Antwerp) have an Eruv, London should not. As it seems difficult to see any objections from a planning point of view, I do hope you will see the wisdom in the proposal and grant planning approval.

Yours faithfully

Andrew Cohen

Dear Sir,

ERUV

As a father of four married children, all of whom have children not able to walk any reasonable distance, I implore you to support the Eruv to be considered by the Planning Committee on 11th November 1992. Some of our married children live within walking distance of our home and the existence of an Eruv would enable us to have all the family together on the Sabbath. As you will appreciate, I can safely say that my wife and I are among many grandparents in the area who would similarly benefit. Please add your support.

I have been informed that there have been some objections but these do not seem to have any basis from a planning point of view and the proposals would not, if implemented, adversely affect any section of the Community at large.

Yours truly,

Bernard Garbacz

10, Kinloss Gar
London N. 3 3DL

13/9/92

Dear Sir, or Madam

Re: ERUV

I am writing regarding the Eruv. As a orthodox jew it will greatly enhance my wellbeing and that of all my family and friends. It will enable my sister to take her baby outside on Saturday whereas up to now she has been unable to as carrying outside is forbidden to Orthodox Jews on Saturdays

It is also a great advantage to the
elderly of the community who are like-
wise restricted.

I see no reason why planning permission
should not be granted. The Eru is
a device which will enhance the life
of the whole Orthodox community.

I am sure that you will act favour-
ably.

Yours sincerely,

David Avenhat

Dear Sirs/Mesdames

Re: The North West London "Eruv"

I am greatly heartened at the progress made so far, but still concerned at the possibility that this important humanitarian project may yet be frustrated.

PLANNING
15 SEP 1992
REPLY TO

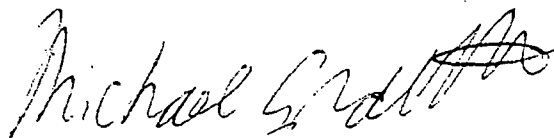

My concern is for the "quality of life", to use a familiar expression, of my father-in-law and many other citizens in a similar position. He is a retired G.P., now 87, and in uncertain health. Until two years or so ago he could get about reasonably well, but one day he brought his prayer-shawl home from synagogue and said very sadly "I shall never go to shul again".

When I told him some time later about the project for an eruv and that he might very well be attending synagogue again within a few months, his face lit up with delight.

I have not heard of any sufficiently valid reasons for denying him this right at his age and after a lifetime of dedicated service to the community. Any possible inconvenience, if any, to anyone else must be absolutely minute compared with the benefit to elderly or disabled people of being able to go about freely and especially to be able to participate in those communal activities which are essentially Sabbath based.

Could I please ask for your support for this project?

Yours sincerely,

Michael Goldblatt.

PLANNING
REC 15 SEP
REF D 10.11.92
COPY TO

12th September 92

Dear Sirs

I am writing as I understand that consideration by the Planning Committee is to be given to the application for an "Eruv" originating from the request to the Council that such a project be implemented.

The matter has already been considered as the policy involved by the appropriate committee. The Planning committee acts I understand (from my some 20 years experience as a council member of your authority) in a quasi judicial capacity on planning aspects.

I rather sense that it could be that non planning considerations will be raised and trust that that will not be a determining factor in the decision. I have seen and been in towns in the USA and in Europe where Eruvs have been in being and the reality is that from an amenity point of view they are so inconspicuous that unless one is looking hard to see where they are and what constitutes them one does not know they are there.

In that context the proposals for the one in Barnet are very little different and I would have thought that acting as planning authority little objection could be raised.

I might add that in the Suburb for many years Television aerials were not permitted by the Suburb Trusts predecessors but the council did not accept that these were unreasonable and in due course this restriction was lifted. This was because the loss of amenity as compared to gain in quality of life was little. I would suggest that the gain in amenity for those for whom the Eruv is meaningful (and that is quite a large number of people) is counterbalanced by a far far less loss of amenity than the example of television aerials.

I trust that you will bring to the committee the content of this letter.

Yours sincerely

14th. September 1992

Dear Sirs,

Eruv Establishment in Hendon and Golders Green

I understand you are now considering an application for the establishing of The Eruv by The United Synagogue Eruv Committee.

Could you please consider the following arguments in favour of granting the relevant Planning Permission:

1- As you are aware in order to create an artificial boundary it is necessary to erect a high level wire at breaches in the present physical perimeter across erected poles. It is felt these poles which will be either of steel tube or timber will not be overtly conspicuous and that they will blend into the 'street scape'.

2- You are aware approximately 10,000 people within the proposed Eruv area will benefit from the establishment of the Eruv. Their amenity will improve, the Eruv will afford them a greater mobility on the Jewish Sabbath and will enable them to carry their personal effects on the Sabbath.

3- I understand the Council has previously granted Planning Permission for the erection of an Eruv at Woodlands Close NW11. I, however, appreciate the Council is not bound to follow its previous decision.

4- The Public Works Committee consented on 30th. June to the erection of the Eruv.

Could you please take these arguments into consideration when considering the Planning Application on 16th. September.

Yours sincerely,

A handwritten signature in cursive script, appearing to read 'Daniel Smith'.

Dear Sirs

re ERUV

With regard to the above, I am writing to explain my personal need as a disabled pensioner. I know there are many others in the district in a similar position. Apart from many people with young children who find it difficult to leave their homes. An eruv would lift a great burden from their shoulders. I can see no objection on planning grounds.

Thank you for your consideration of the proposal and do hope that your decision will be in the affirmative.

Yours faithfully

Dear Sirs,

I will be asking you to give your favourable consideration to the creation of the Eruv. There appears to be no objection to the Eruv on planning grounds and it is really needed by many frail and disabled people in the community.

I will be pleased to learn that your Department has given permission for the Eruv in the very near future.

Yours sincerely
Renee Lew

Dear Sirs

re ERUV

I am writing to emphasise how wonderful the establishment of an Eruv would be for my own family. I have a baby son, just 10 days old in addition to an infirm mother in law. Due to our religious convictions only with an Eruv would we all be able to leave our house on the Jewish ~~Sabb~~ Sabbath.

I can see no objection on planning grounds - and I understand that the United Synagogue Eruv Committee will cover all the costs and ensure that no-one is inconvenienced.

Yours Faithfully

Dear Sirs

Ref: Eruv Proposal

I am writing to ask for your support for the proposed Eruv in this area. The benefits for my family, and for the orthodox Jewish community, are enormous. There is clearly evidence in the many major cities that support an Eruv throughout the U.S. and Western Europe.

The impact of the Eruv on our environment is negligible, and I find it inconceivable that there are real planning objections.

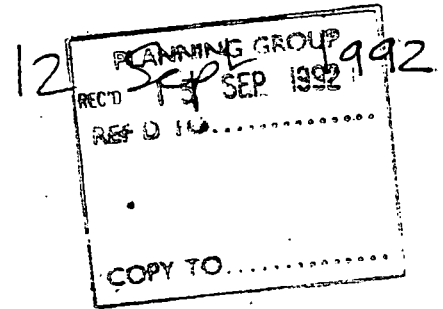

My family and I hope we can rely on your support

Yours Faithfully

Peter Hoggard.

"ERUV"

14.9.92.

Dear Sir/Madam,

We are writing
to urge your committee to
consider the great need of
the orthodox Jewish community
in the area for an 'Eruv'.
This would enable

particularly young families
to lead an easier life
on the Sabbath when such
activities as carrying a
child or pushing a pram
would then be possible.

We understand that from
a planning point of view
very little or in fact no
inconvenience would be caused

so local residents by the
erection of some extra poles
and the connecting of
them by some wires etc.
In anticipation of your
kind help and support
Yours Sincerely
Simrit Abjeet / Capkin

P.S. In addition many of our
elderly members who otherwise
cannot get to synagogue would
within an hour be able
to do so i.e. by using
wheel chairs or Zimmer frames

Dear Sirs,

In response to your recent call for comment regarding the application made by the United Synagogue Eruv Committee for the erection of an Eruv in the Barnet area, I would like to voice my strong support for this project.

As an orthodox Jew, the 'eruv' will make life a lot easier for me and my family on those days when it would otherwise be forbidden to carry in a public place. Having visited Israel, New York and Antwerp, where an eruv is an established fact of life, the absence of such a facility in Barnet, is even more glaring. I certainly have no

objection to the erection of the 'crus'
on planning grounds, and as a
long standing voter and rate payer
in this Borough I would expect you
to support this vital project, which
will greatly enhance the quality of
life for a large number of residents
of this area and conversely, will not
inconvenience anyone.

Dear Sirs,

Eruv

Further to your call for comments on the above subject I am writing to stress how important it is for myself and my family that the above scheme obtains your approval. I have several young children who currently are housebound for a good part if not all of Saturday and effectively are denied the opportunity of enjoying the recreation that the Eruv would allow. Indeed the Eruv would completely alter the character of the weekend transforming it from a period of restrictive confinement at home to one that would be the highlight of the week and would allow the family to all go out together as a unit with the obvious inherent benefits.

I personally can not see any objections on planning grounds - a few effectively invisible wires certainly can not practically interfere with anyone in any manner whatsoever.

Yours faithfully,

Dear Sirs,

Re: Eruv

I am writing in connection with the proposed Eruv.

I and many other members of the Jewish community feel that an "Eruv" is an important need for us. It will assist many people to go out on the Jewish Sabbath who at the moment are unable to.

It will have very little effect on the landscape of the Borough and therefore request that you give the proposal your approval.

Yours faithfully
J. Teledan (Mrs)

Planning Dept
Barnet Council
London NW4.

Dear Sirs.

I am writing to you regarding the proposed "eruv". I feel that if it were to be approved by you it would make the lives of many Jewish people easier, who would otherwise be housebound on the sabbath day.

Should the "eruv" come about I'm quite sure it would cause no disturbances or bother to any other residents in the area, and therefore request that you consider this proposal favourably.

Thanking you in advance for your cooperation.

Yours faithfully

D. Tordella

Eruv

I very much hope that planning approval will be given for the Eruv. I am a mother of a young child and am expecting a baby shortly. The ability to use a pushchair and to carry things for the children on the Sabbath will entirely revolutionise my life, making it incomparably easier for me to see family and friends on our day of relaxation.

Dear Sirs,

Eruv

My family, along with hundreds of other families in the Borough, will benefit enormously if planning approval is given for the Eruv. The ability to carry will enhance the Sabbath particularly for those with small children.

Since the Eruv has been planned carefully, along the lines of other cities in various countries, so as to avoid inconvenience for other residents of the Borough, we all very much hope that approval will be granted.

Re: The 'ERUV'

107.

Dear Sir / Madam

The existence
of an Eruv, in religious terms
will benefit many Jewish people,
particularly the disabled, and
the frail, as well as young
children and their mothers.

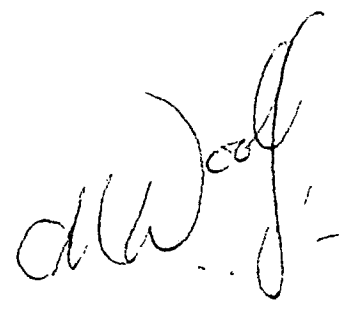

My family will benefit from
an Eruv, and I wish it
to be known, that I want

it and need it, and I
see no objection on planning
grounds to its existence, as
it can have no impact in
any way on the rest of
the non-Jewish community.

We therefore implore you
to approve planning for the
Eruv.

Thanking you in anticipation
of your support.

Yours truly,

Dr.  Wolf

Dear Sir,

London "ERUV"

My family and I believe that it is vitally important for the planning dept to support the ERUV and grant permission for approval and building.

Many in my family are "incorporated" so as to say during the Sabbath and other holy days because they cannot visit friends, relatives and go to places of worship, old people and the young with children.

What is involved can hardly be considered obvious, or offence and will inconvenience no one. Just compare this to the many eye-sores and inconveniences that have been granted permission.

Yours sincerely

13 Sept. 1992 qq.

Dear Sirs,

For many years now my congregants
have been pressing me and my colleagues
in the Rabinate of the United Synagogue
in N.W. London to erect an ERUV. The
help this will give to the very young, the
elderly and the disabled is enormous.
It will free them and allow them
movement on our Sabbath + Festivals
where they were previously housebound.
We are now within sight of a communal

dream; to dash that hope would be a cruelty. The Jewish community is prepared to fund it, keep it in order, insure it, to do everything to ensure it is no inconvenience to the general public. We beg you therefore to give it the green light and to give many of your constituents a new lease of life on our own special days.

Yours faithfully

From Dr. Arnold S. Oppenheimer

9, ASHBOURNE AVENUE,
LONDON, N.W. 11.

14th September, 1992.

The Planning Department,
London Borough of Barnet,
Barnet House,
1255, High Road,
N20 0EJ.

Dear Sirs,

re "Eruv"

I am writing in connection with the planning application for the installation of an Eruv in some parts of the Borough.

I have read in various issues of the Hendon & Finchley Times letters opposing the planning application and belittling the need for such "Eruv".

I, for one, obey Jewish religious law and thus cannot carry anything at all outside my house on Saturdays. The installation of an "Eruv" would enable me to carry, for instance, keys, spectacles, prayer books, etc., and thus be a great boon.

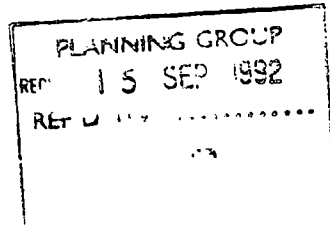

I should, therefore, be greatly obliged if you would grant the application and in this way make life easier for me and for the majority of observant Jews in the borough, without hurting the interests of the General Public.

Thanking you,

Yours faithfully,

Arnold S. Oppenheimer

Dear Sirs,

RE:- ERUV

I am writing to ~~convey~~ you
to give most serious consideration
to approving the proposed Eruv.

It would enable ~~all~~ elderly and
infirm members of the orthodox Jewish
community to ~~cease~~ being confined to
their own homes on Sabbath.

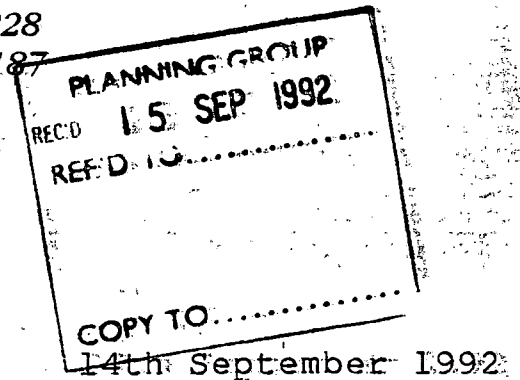

In addition, it would radically improve
the lives of the young mothers, who
because their children are not able to
walk or to walk any distance,
at the moment, also, prisoners
in their homes on Sabbath.

As a family, we have discussed
the matter thoroughly and can see no
objection on planning grounds. We
therefore ask you to give your permission.

Yours sincerely

Reference 'Eruv'

As a resident of Barnet, I am very much in favour of the introduction of an 'Eruv' in our area.

As an observant Jew, it would very much enhance the enjoyment of our Sabbath, both for me and my family.

This would be of great benefit and a blessing for the disabled and elderly members of our community, and young mothers with prams who would then be able to attend Synagogue and visit relatives - simply to be able to carry an umbrella in heavy rain would be very convenient.

I do not see or what grounds anyone could object to an 'Eruv', it is not an eyesore or hindrance to anyone and hardly noticeable. There are 'Eruvin' in some other cities abroad and I have never noticed their existence.

Yours faithfully,

R. Katz (R. KATZ)

Eruv

I am writing in connection with the proposal to erect an eruv.

I want to say that for an ^{orthodox Jewish} family such as mine with two young children, the eruv will provide us with an opportunity on our Sabbath to go out as a family to visit friends or to the park. We are currently unable to do this due the rules of the Sabbath which, without an eruv, mean that we cannot carry outside.

It would also obviously be of benefit to the elderly and infirm who without an eruv are also unable to leave their house on the Sabbath.

I do hope that you will support the planning application for the eruv as it will make such a (pleasant) difference to our lives. Furthermore I can see no possible objections on planning grounds as the poles/wires etc. will fade into the background.
Yours faithfully

21 June 1990

Dear Mr Sir/Madam,

ERUV

My wife and I, who are observant Jews, brought up our three children without the benefit of an Eruv. This meant that for all intents and purposes, until our third child could walk, we were prisoners in our own home during the Sabbath. We were unable to visit friends or even attend the Synagogue together.

I cannot overemphasise the difference in the quality of our weekends that would have occurred if an Eruv had been in existence fifteen years ago.

London is one of the few major Jewish centres, where due to the apparent reluctance for any change in the status quo by the far right, no Eruv has been established.

There is not a single town in Israel which does not have an Eruv approved and checked by the Rabbinat.

I have an infirm Mother who was unable to attend my eldest son's Bar Mitzvah due to the lack of an Eruv which would have allowed her to come to the Synagogue by wheel chair. My youngest son will be Bar Mitzvah next year, and I sincerely hope and pray that your vote will enable my Mother to attend her grandson's Bar Mitzvah ceremony and that my children will be able to visit their friends on the Sabbath.

The Eruv is virtually invisible and I can see of no reason why planning permission should be refused.

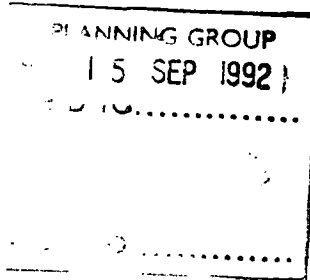

Yours sincerely,

R. Landau

Dear Sir

ERUV PLANNING APPLICATION

I am writing to urge Barnet Council to approve the Planning Application for the North West London Eruv.

The Eruv's impact on the environment will be negligible. There will be a total of under 70 poles and a few hundred yards of wire in the 11 mile circumference of the Eruv.

In my view there are no planning reasons to turn down this application and it should therefore be approved.

Yours truly

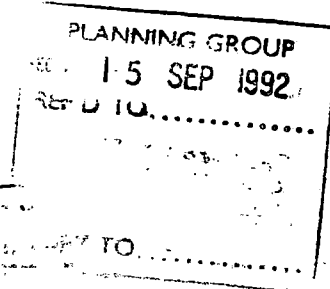

Erica L. Lawson

Dear Sir.

I understand that your department will soon be considering planning approval for the Jewish Community's application to construct an Eruv.

As an Orthodox Jew I would like to re-iterate the importance of our proposals. Our practises prevent us from carrying on the Sabbath unless the town has some form of visible boundary. This means that parents with young children, the elderly and infirm cannot attend Synagogue nor visit family and friends unless they decide to break the laws. The solution is to construct such a boundary. This is simple and would cause minimal inconvenience to the wider community. Furthermore, I can see no objection on planning grounds.

Britain is the only country in the world with a large Jewish population not to have any Eruvs. Barnet Council already enjoys excellent relations with its Jewish residents. These could be enhanced further if you were to take the initiative and establish the first Eruv in the UK.

The Jewish Community is counting on your support.

Yours sincerely.

Paul Davis

September 11, 1992

Dear Sir

ERUV PLANNING APPLICATION

I am writing to urge Barnet Council to approve the Planning Application for the North West London Eruv.

In my view there are no planning reasons to turn down this application, since the Eruv's impact on the environment will be negligible. There will be a total of under 70 poles and a few hundred yards of wire in the 11 mile circumference of the Eruv. The benefit of the Eruv to the thousands of Barnet residents who will use it far outweigh any the small addition that the Eruv's "hardware" will make to existing street furniture. The Eruv planning application should, therefore, be approved.

Yours truly

Aron Lawson

We are two of your many friends
 residents in this Borough who are very
 concerned that the Planning Committee
 agree to the forthcoming "Knuu", as it
 will enable parents with young
 children and elderly + infirm to go out
 on our Sabbath in prams + wheelchairs.
 We are looking forward to this
 long-awaited plan to come to fruition.

Yours faithfully,

(Mrs.) + (Mrs.) R. H. Goldstein.

Dear Sir,

I am writing to say that I strongly support the planning application that has been made for an Eruv. It will be a great facility for me and my wife and for our two young children. I can see no serious objection to it on rational planning grounds. It will be a very positive improvement to the lives of the mothers of babies and to the wheelchair-bound within the Modern Orthodox Jewish community in the area. I do hope it is approved.

Yours faithfully

Dear Sirs,

The North West London ERUV

I understand that the council is shortly to discuss the North West London ERUV.

As a father of 5 young children and an orthodox Jew, the ERUV is essential.

I cannot see the objection. It will not affect our non-Jewish neighbours and those Jews who do not want to use it don't have to!

Many of my friends share these views. Please therefore convince your councillors that many young orthodox Jewish families want the ERUV to proceed.

Above all, the Jewish Orthodox elderly and sick will be those to benefit most.

Thanking you,

Yours sincerely,

ERUV

Dear Sir / Madam

I am writing to you ~~concerning~~ ^{concerning}

the Eruv. As a resident of Barnet for the past 35 years I am particularly concerned that this matter should be considered very positively by your planning committee, as it will be of enormous benefit to the large number of Orthodox Jewish residents in the borough.

As a mother with young children and elderly parents who also live in Hendon I will be able to fully participate in the religious life of our community IF the Eruv

is allowed by your committee. You
will be bringing a very greatly enhanced
life to many families like myself to
enjoy the benefit of a full religious life
by allowing us to go out on our sabbath.

Your vote in a positive way for the
ERUV will bring much benefit to a
great number of people and I therefore
hope you will give permission for it to
be allowed.

Yours faithfully

Dear Sirs,

ERUV

I am writing to support the proposal for an Eruv.

In assessing the importance of the Eruv I believe that you should bear in mind a number of points.

Firstly, the existence of the Eruv will have practically no effect whatever on the general population. Therefore they can have no real objection.

Secondly, the Eruv is a piece of Jewish heritage and culture. It has always been the custom of this country to welcome people of other cultures and encourage them to maintain their traditions provided that they do not cause harm or offence to any one else.

Thirdly, there are many precedents for Eruvim in the past. My Great Grandmother enjoyed the benefit of one in the East End of London for many years when she first came to this country. I cannot believe that something that was permitted then cannot be permitted now.

Fourthly, the existence of the Eruv will permit the freeing of many young mothers and elderly people who are deprived of social contact on the Sabbath because of young children who cannot walk or infirmity.

Finally, Jewish people form a large part of the population of Barnet. In the same way as the government permits us to have our own institutions including courts which are recognized by English law and schools, it can only benefit the area to allow this inoffensive but highly important facility.

This is a much needed and wanted facility and I hope therefore that you will allow the proposal to go forward.

Yours faithfully

Dear Sirs,

Ref: ERUV

Now that the Public Works Committee has approved the Eruv I am told that matters move on to your department for approval, and so I am writing this letter to you to express how much this Eruv would mean to my family.

I have five small children, and on a Saturday my wife is literally housebound as in the Jewish religion one is not allowed to carry children who are not able to walk themselves.

I have been a resident of North West London for my entire life, and I have seen in the past, with the elderly members of my family, how much something like this would have helped make their lives easier. I now see from the other end of the spectrum how much it would help us in bringing up our children.

We are very fortunate that we have no disabled members of our family, but I see around me that these unfortunate people would also have much more freedom and be able to participate on a Saturday rather than being confined to their houses all day.

It seems to me that nobody can really suffer from the setting up of this Eruv but so many people would benefit. On behalf of myself, my family and all our community, may I plead with you to make sure that this application is not only considered, but finds its way to being approved.

It is because we can write these letters and know that you will indeed help us that we feel privileged to live in this area.

With many grateful thanks,

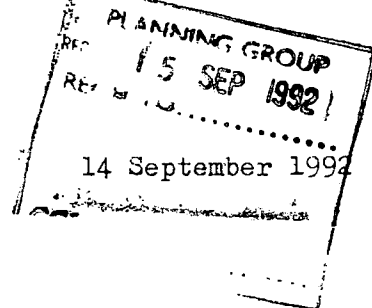

Yours sincerely,

P. Kreditor

Dear Sirs

RE ERUV

We understand the planning committee will shortly be meeting to discuss the above.

Although we personally will not be affected one way or the other, we appreciate that a very significant number of Barnet residents are persons who are observant members of the Jewish Faith and who will benefit enormously from the installation of an ERUV. Any objections on moral grounds should be confined to domestic discussions within members of the Jewish community and should play no part in the Planning debate.

that an error will cause no undue inconvenience
to the general public or is aesthetically,
materially less urge that a positive decision
is made which will result in great
benefit to a large number of residents.

Dear Sirs,

RE: PLANNING APPLICATION - Eruv

We are writing with reference to the application to permit the Eruv.

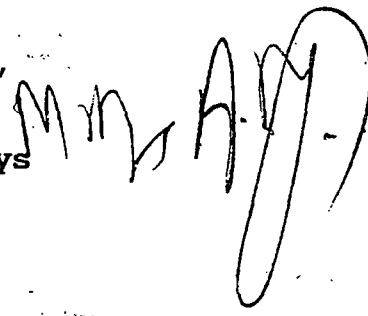

From our own family's experience, we can state that the grant of permission would benefit three generations of our own family. The writer's mother, who has been attending Synagogue regularly all her life, is now infirm and crippled with arthritis and unable to walk on the Sabbath, and is therefore totally cut-off from her social and religious life. The Eruv would permit her to be taken to Synagogue and to visit friends, in a wheel chair. We ourselves, have a baby just over one years old. We are unable to take her to Synagogue in a push chair and must wait until she is able to walk before doing so, and this also means that one or other parent is unable to attend Synagogue, or to visit family and friends, either.

We also have a handicapped daughter who was unable to walk properly until she was nearly four years old, and people now in her position would also be given the opportunity of mobility on the Sabbath, both to attend Synagogue and to visit family and friends.

The adoption of the Eruv, will clearly benefit a great many people in the Borough and we hope therefore, that a positive decision will be taken at the relevant Committee meeting. It is evident from the local press that many of the objections being raised are being made on grounds that have no bearing on Planning aspects, and we would hope that the Planning Committee would not take account of objections other than those being raised on strictly Planning grounds.

Yours faithfully,

Mr and Mrs A. Mays

Dear Sir,

I am pleased that the plans for the
Ezer are coming before you for your approval.

Whilst I feel sure that it will not
interfere with anyone it will certainly be
of great help to our very many - orthodox
Jewish members of the community. It will
particularly enhance the lives of the disabled
and frail people needing walking aids and
wheel chairs who at present are unable to
attend Synagogue and generally get
about on the Sabbath.

There are countless families with
young children who are confined to their
homes as they are unable to use prams
and buggies or carry their babies. An
old Ezer would give them much greater freedom
and heighten family life.

I do hope you will take these points
in to consideration.

Yours sincerely,
Mrs Gillian Newman

Dear Sir

Re Ennis Planning

I understand that there will shortly be a meeting to discuss proposals for the abt. I am totally in favour of the above as it will be of immense benefit to my father who is 88 and my mother-in-law who is 82.

It is one of the few instances of planning request where nobody can honestly say that they are personally harmed by the proposal but many people will benefit.

Yours sincerely

Dear Sirs
Re: Eruv.

I am a resident of the Borough of Barnet. As an orthodox Jew the proposed Eruv is a vital and necessary part of Sabbath observance and consequently I need it to be erected as soon as possible. In addition it will assist the many disabled, elderly and frail people in the community.

Having had over twenty years experience in planning, I can see no objection on planning grounds to the Eruv being erected.

I therefore trust that you will grant Planning Consent to this proposal as soon as possible.

Yours faithfully

STUART L CAPLAN

13th September, 1992

Re: ERUV

Dear Sirs,

The proposed Eruv would enable the disabled in wheelchairs to get out and about on the Sabbath rather than be confined to their homes.

Similarly mothers with small children could use prams and push chairs which would otherwise be forbidden.

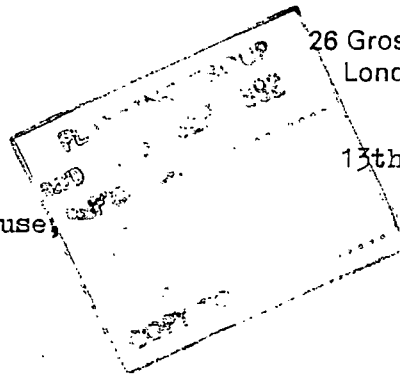

The Eruv would not inconvenience or disturb the general public in any way whatsoever.

I urge the Planning Committee to give their consent.

Yours faithfully,

Mr B. Harris.

Dear Sir or Madam,

Eruv

COPY TO.....

May I add my support to those who have been campaigning for some time for the erection of an "Eruv".

My wife and I have two young children and the erection of an "Eruv" would make it much easier for us to convey them on the Sabbath, which is now all but impossible under orthodox Jewish law.

Having seen the detailed plans for works which were circulated at the last Council meeting of the Hampstead Garden Suburb Residents' Association (which decided that the erection of an "Eruv" was not something which was the legitimate concern of the Association), it is quite clear to me that there can be no sensible objection on planning grounds.

I do not believe that the community at large will even be aware that the "Eruv" is present. This is certainly the case in other communities of which I am aware where an "eruv" has been erected.

I do hope that the necessary consent will be given as the provision of this facility will enhance considerably the lives of so many, while in reality offending no one.

Yours faithfully

Dear Sir

Re:- ERUV

As regards to the ERUV, which we have patiently been waiting for, we have no objection whatsoever on planning grounds in having this ERUV. In fact it will be beneficial to all, for the following reasons.

① To allow the elderly & disabled to go to the Synagogue in wheel chairs who have been attending the services when they were in good health.

② To allow young parents to take their children in prams & push chairs to the Synagogue. At present one parent is deprived going for the services.

It is necessary that the ERUV be approved as it will help a lot of people.

Thanking you

Yours faithfully

Dear Sir/Madam

May I once again urgently and even humbly appeal to you to approve the establishment of the ERUV details of which you have already in your possession.

Since you have received and undoubtedly carefully studied the details of how and where the ERUV will be situated, I cannot see how you can objectively speaking, negate the entire system.

I do not know what more one can say in favour of the ERUV, or even against it than what has already been said and written.

As you have been honourably appointed to serve the needs of the citizens of this Borough you will be fulfilling a worthy duty on behalf of a considerable proportion of such citizens.

Surely the bottom line now rests on an ancient concept: "To one side it is of considerable benefit and advantage and to the other side there is NO DISADVANTAGE". Or to use a modern colloquialism "there is no skin off their nose".

Please give the ERUV final planning permission.

Yours faithfully

N. Monk

RECEIVED
11 SEP 1992
PLANNING
BARNET

Dear Sirs,

Re: "ERUV"

I write to you, firstly in my professional capacity as a Solicitor with 25 years experience of planning matters, especially within the London Borough of Barnet.

I have inspected the proposed plans for the Eruv and certainly consider that it cannot possibly offend any planning principles, and for this reason alone, should be permitted and confirmed as quickly as possible.

From a social aspect, I would heartily recommend that permission BE granted to the Eruv Project, as my mother and mother-in-law who are, because of their frailty and disabilities, prevented from leaving their homes on the Sabbath, they are thus denied the pleasure of meeting their grandchildren and family, which is taken so much for granted by fit and well people. Similar benefits would accrue for young parents prevented from using their prams and pushchairs.

I trust therefore that you will use every influence and effort in order to grant planning permission so as to ensure the establishment of this very worthwhile project.

Yours truly,

M. A. WULWICK

PLANNING GRO
REF 14 SEP 1992
REF 14 SEP 1992
COPY TO.....

Dear Sirs,

Re: North West London Eruv

We are writing to you to ask you to support the application for planning permission for the North West London Eruv.

It would be of great benefit to us and our community to have this Eruv as not having one causes some inconvenience. We are a young couple living in Hendon and many of our friends have young children. Without an Eruv, they are unable to push a pram or pushchair and therefore are effectively housebound on a Saturday. As we intend to start a family some time in the not too distant future, we too would like to know that we will not have to stay indoors every Saturday until our children are old enough to walk.

The Eruv would also be of great benefit to those people who have elderly or sick relatives or friends. Those in wheelchairs for example, could be taken outside on a Saturday for an often greatly needed 'breath of fresh air'. Without an Eruv, we are unable to carry outdoors on a Saturday; with one, various items could be carried to the houses of those who need them.

We feel that the Eruv would not disadvantage the wider community in any way whatsoever but would greatly benefit the religious Jewish community and we are unable to see why opposition to it should exist. We therefore very much hope that you will support this project which will enhance our personal and communal life.

Thanking you in anticipation,

Dear Sirs

"Eruv"

I am writing in support of the application relating to the above matter.

Obviously the purpose and specification of the Eruv has been explained to you by those actually responsible for lodging the application. I simply wish to stress to you the following points:-

1. I have seen statistics suggesting that the Jewish population of the London Borough of Barnet is in the region of 60,000. The area covered by the Eruv is where the majority of that Jewish population lives and a high proportion of the Jewish population there regard themselves as bound by the Sabbath laws which prohibit carrying items (even such as keys, spectacles, walking sticks etc) or pushing prams within an area of public ownership. The result is that mothers with young babies and disabled and frail people are effectively unable to leave their homes on the Sabbath without the institution of the Eruv, which notionally turns an area of public ownership into an area of private ownership (according to Jewish law), although of course it has no effect whatsoever from the point of view of English law.
2. Most major cities in the world where there are large Jewish populations already have an Eruv surrounding the parts of the cities with large Jewish populations e.g. in Israel, the USA, Canada and elsewhere in Europe. It is only due to the innate conservatism, of British Jews, I believe, that this institution has not previously been sought here.
3. As a solicitor who specialises inter alia in planning law, I cannot see anyway in which there can be any planning grounds for objection to the proposal. The proposal would benefit a fairly large section of the population of the borough without in any way being detrimental to the remaining population.

For these reasons I urge your Borough to grant the permission sought by this application.

Yours sincerely

Dear Sir

ERUV PLANNING APPLICATION

I am writing to urge Barnet Council to approve the Planning Application for the North West London Eruv.

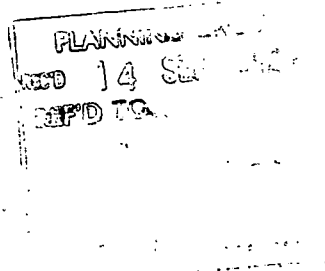

The Eruv's impact on the environment will be negligible. There will be a total of under 70 poles and a few hundred yards of wire in the 11 mile circumference of the Eruv.

In my view there are no planning reasons to turn down this application and it should therefore be approved.

Yours truly

Dear Sir

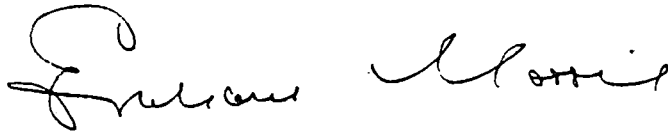

ERUV

As a father of four married children, all of whom have children not yet able to walk any reasonable distance, I implore you to support the Eruv to be considered by the Planning Committee on 11th November 1992. All our married children live within walking distance of our home and the existence of an Eruv would enable us to have all the family together on the Sabbath. As you will appreciate, I can safely say that my wife and I are among many grandparents in the area who would similarly benefit. Please add your support.

I know that there have been some objections but these do not seem to have any basis from a planning point of view and the proposals would not, if implemented, adversely affect any section of the Community at large.

Yours truly

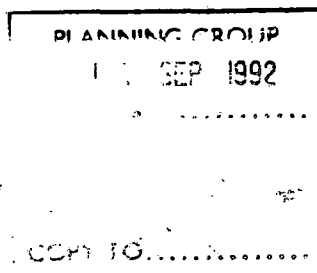

G.S. Morris

Dear Sir

ERUV PLANNING APPLICATION

I am writing to urge Barnet Council to approve the Planning Application for the North West London Eruv.

In my view there are no planning reasons to turn down this application, since the Eruv's impact on the environment will be negligible. There will be a total of under 70 poles and a few hundred yards of wire in the 11 mile circumference of the Eruv. The benefit of the Eruv to the thousands of Barnet residents who will use it far outweigh any the small addition that the Eruv's "hardware" will make to existing street furniture. The Eruv planning application should, therefore, be approved.

Yours truly

Vardit Lunzer

Dear Sir/Madam,

Planning application for Ervv

Please report to the relevant committee my wholehearted support for the Ervv and remind Members that they are solely concerned with the planning merits of the proposals, from which point of view there can be no possible objection.

Yours faithfully

V. TRENNER

Dear Sir,

Re: Proposed Eruv in Barnet

I understand that this matter is to be considered by the Planning Committee or Council this coming week and I would like to lend my support to the proposed Eruv and I would make the following points:-

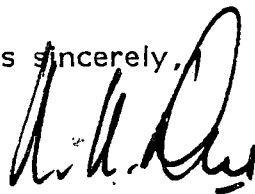

1. The limited number of poles which are to be joined by wires will be in discreet locations at the perimeter of the area involved. The poles will be unobtrusive, blend into the surroundings and be hardly noticeable to members of the general public. They will not be highlighted by any form of visible display or sign and will not cause any obstruction whatsoever. It is for these reasons that no doubt the proposals have already been accepted by the Public Works Committee.
2. The proposals will not in any way affect or prejudice any residents within the area. The only possible difference will be that on Saturdays certain religious individuals will take advantage of the situation and observant mothers will be able to wheel their children in pushchairs and the elderly and disabled will be able to visit Synagogues and friends rather than being confined to their homes. To a large number of the Jewish population the Eruv will have no impact whatsoever. For the ultra orthodox, it is anticipated that they will not take advantage of the Eruv for fear that it might not satisfy all their requirements, and may at some stage be breached rendering it invalid. For those who are non-observant it will make no difference at all. The real advantage will be for those "middle of the road" Jewish people, primarily for the young, handicapped and disabled. They will have the advantage of being able to go to Synagogue, to go out on Saturdays just in the same way as other members of the general public.
3. I understand that there may well be members of the Jewish community who have written to object to the proposed Eruv. These members are likely to be those who are non-observant and who through ignorance are not familiar with the Jewish Laws or Practices in relation to the need for the Eruv. Obviously these members of the Community have no need of the Eruv and yet encourage its rejection to the detriment of those who do.
4. To summarise therefore, bearing in mind that the wooden poles will be unobtrusive and hardly noticeable and will have no adverse impact on the Community at large I would strongly recommend the proposals be

Contd/...

accepted. If however there is any doubt, then I would advocate that it be approved for a limited period of two years so that it can be re-evaluated at that time. I am sure there will be no adverse comments so that the Eruv can then be made permanent.

I would appreciate it if my views could be circulated to the Members of the Committee/Council as necessary.

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'M. Davis', written over the typed name.

Dear Sir,

Re : Eruv

Further to our correspondence with His Worship the Mayor, we are writing to seek assurance that the proposed eruv will embrace the border of NW4 and NW9 where we are resident.

We hope that the eruv will receive Planning Permission soon.

With thanks.

Yours sincerely,

Sharman Kadish Greenberg
