10 January 1994

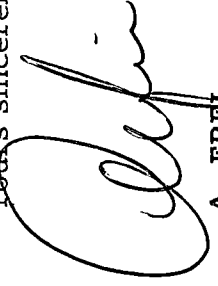

Dear David

I must write to thank you for your letter dated 6th January which of course has been superseded by the telephone message you left for me on my answer phone. I recall however, that you did write to me concerning the pledge given by Bernard Faber and I would just remind you of this letter and let me know whether infact you have received his contribution as yet. If not, I will of course chase it up for you.

I attach a copy of the letter which I wrote to Rabbi Roberts shortly before my departure for Israel together with the response which I received last week from him. As you can see, this is a copy of the letter published by Rabbi Elchonon Halpern, which in itself as far as I am concerned, is not very conclusive. I do feel however, that a reply should be sent by me to Rabbi Roberts who is presently away in Israel. I have sought advice from a couple of friends and family and would also welcome any comments that you have in regard to same.

Kindest regards

Yours sincerely

A. FREI
