5 November 1996

Councillor Barbara Langstone
Barnet Town Hall
London NW4

Dear Councillor Langstone,

It was my pleasure to meet with you a few years ago at the Barnet Town Hall regarding the GUV then being planned for the local Jewish community.

Following the Public Enquiry, planning consent was finally granted by the Secretary of State in 1994. However, since then some revisions (primarily arising from the North Circular Road works) had to be made, and these are now awaiting confirmation.

You had kindly asked last time not to register any objection, and I confidently hope that you will now once again not vote against the scheme which will bring such significant relief to so many Jewish residents.

With much appreciation and every good wish

Very sincerely yours,

Jakobovits
