Dear Brian

Eruv

Our meeting with Mr Koster of the London Borough of Barnet earlier today went very well. He has agreed to let us have a draft licence early in the new year, if not before the holiday. He will also let us know the Council's requirements with regard to fees and bonds. We are therefore making preliminary soundings with the two contractors approved by the Council for work of this nature with a view to a tendering process working in parallel with the legal and other work needed before construction work on the Eruv can commence. We are looking to having everything in place by the end of February so that construction can commence as soon as possible thereafter.

Needless to say we shall now need the company limited by guarantee and I look forward to hearing from you in this respect as well as with regard to the licence when you hear from the local authority and with regard to the Highways Agency licence of which I believe we already have a draft.

With all good wishes

Yours sincerely

Graham Morris
