Councillor John Tiplady,
Town Planning & Research Committee,
Members Room,
Hendon Town Hall,
The Burroughs,
London,
NW4

21st January 1993

Dear Councillor Tiplady,

Proposed Eruv

It must be apparent to you and your committee from the coverage in the press and letters you and your colleagues have received that this application is very divisive.

We live in a multi-racial and multi-cultural society where there is a general desire to be tolerant of each other and to live together peaceably. This is difficult enough, but to impose the religious requirements of a minority is quite unacceptable and a denial of our freedom as individuals.

You do not have to look too far afield to witness the results of a minority forcing their customs on the majority to see the kind of unpleasant incidents that will arise.

There is also the question of the hazard these 12ft. poles would create on the pavements, already cluttered, and their unsightliness.

In view of these considerations and the serious implications on the majority of the community we urge you and your committee to deny this application.

Yours sincerely,

Elizabeth R. Lewis
