## PRESS RELEASE - ERUV

The matter of the proposed ERUV was discussed at the Trust Council meeting on Wednesday 23 September, after the AGM on the previous evening. The following letter of clarification has been sent to the London Borough of Barnet.

"In view of recent press coverage of the proposed Eruv, I should like to make the position clear on behalf of the Trust Council, who discussed the matter at their meeting on Wednesday 23 September 1992.

1. We do not oppose the plans.
2. We recognise a potential divisiveness which has already begun to surround the proposal to place an Eruv boundary on the south side of Wildwood Road.
3. The proposed poles between Wildwood Rise and Wyldes Close might be unsightly and may not be in keeping in an Outstanding Conservation Area. Moreover, there may be practical problems over the maintenance of these poles and their connecting wires."

Christopher Kellerman  
Trust Manager
