Dear Mr Sheldon

Eruv

Herewith the Licence for execution by the Eruv Committee or a Director of it and return to me.

Please let me know who does execute it.

The problem with the Performance Guarantee is that that itself as far as I know recites the Licence as being an executed document. It should therefore be dated immediately after the Licence is exchanged and not before it.

Can we persuade the Bank to allow us to re-date it and initial the re-dating on their behalf as being dated the date of execution of the Licence, and if not can we discuss this please?

Yours sincerely

Brian Levy
Partner
