Date 4th February 1997

Dear Graham,

ERUV

Further to our recent telephone conversation I have now prepared draft application documentation in respect of the six remaining sites. I enclose a copy for your information and comment and am also sending this document to Edward and Alan.

I have sufficient drawings to submit the revised application insofar as it relates to locations 13 and 14 but I do not have the necessary drawings in respect of the four sites which were refused at the 8th January Committee meeting.

Subsequent to our telephone conversation I spoke to Alan and he agreed to look at these sites and come up with revised proposals. I look forward to receiving these once they are available. At that point I should be in a position to amend my covering letter further by explaining the changes that have been made.

At that time could you please advise me whether you wish to go straight to the submission of this further application or whether you would wish to have any discussions with either Council officers and/or Council members before the application is submitted. I await your instructions on this point, your comments on the application documentation and the revised drawings concerning sites 41, 42, 45 and 47 from Alan Perrin.

With kind regards.

Yours sincerely,

Graham Murdoch
