

The Eruv

Your Questions answered

Barnet's Planning Committee is meeting on February 24th to determine the United Synagogue's application for planning consent for the construction necessary to complete an Eruv in North West London.

The Eruv will enhance the enjoyment of the Sabbath for young families and the disabled within the observant Jewish community, with no significant loss of amenity to local residents.

It is evident from letters and comment in the press and from the proliferation of inaccurate rumours that there is still a lack of understanding about the purpose and nature of an Eruv.

You are therefore invited to put any questions you may have to a panel of experts.

7-9pm on Monday 22nd February 1993
