Sir

The under-signed are all residents of Hampstead Garden Suburb. We are all totally opposed to the proposal for the construction of the 'Hendon and Golders Green Eruv'.

Our objections are on two grounds. First, the poles would introduce an unacceptable degree of visual blight into the area from which everyone will suffer even though the structures will have been erected to serve the interests of only one religious group.

Secondly, the proposal would cause serious disturbance to social harmony in the area. Deep offence and hostility would ensue if religious hardware of this kind were to be erected on public roads and open spaces.

A few months ago we were all delighted that Lord McGregor of Durris had agreed to take over the chairmanship of Hampstead Garden Suburb Trust. His resignation at the recent meeting of the Trust, as a result of the vilification to which he was subjected, is a foretaste of the dissension that will be caused if this proposal is allowed to proceed.

Yours faithfully
