Dear Mr. Freshwater, עמו'ש

The need for an ערוב to enhance קדושת השבת in our area has long been acknowledged by Rabbinic and lay leadership. We are delighted to inform you that an initiative has now been taken, on behalf of the Community as a whole, to achieve this goal.

As the preliminary step, a study was commissioned to establish the basic halachic feasibility. Rabbi Shimon Eider שליט"א of Lakewood is an acknowledged authority on urban ערובים, having supervised more than twenty in North America under the personal guidance of Reb Moshe Feinstein זצ"ל. Recently, Rabbi Eider spent several days here studying the specific proposal, both 'street by street' and in the relevant תשובות. His conclusion is that the area lends itself well, both halachically and physically, and his report is entirely positive.

We are confident that with the support of the local Rabbonim and communities, we will, בע"ה, move this important project through to completion and undertake the various aspects of planning, management, finance, education and maintenance. In order to ensure that Finchley Road Synagogue is involved and properly informed, we invite you, or your nominated representative, to join a Liaison Committee. The first meeting will be held at 2:30pm on Sunday the 17th. January at the Hasmonean Boys School and an agenda will be forwarded to your representative. At that time we will present the details of the planned ערוב, and subsequent meetings will be arranged as required, in order to ensure smooth implementation with appropriate information and educational back-up for each Community. We enclose a reply form for your convenience.

We look forward to your participation and valuable input in this important Community project that will enhance שמירת המצוות and the quality of religious life for all in the area.
