25 November 1991

Dear David

Thank you for your letter dated 19 November 1991. The delay at the Council end is very frustrating, but I agree with you that we should use the interim period wisely. We have, in fact, at the Committee, at one time or another, discussed all the points mentioned in your letter. However, I think it will be helpful to call a meeting of the Committee so that we can refocus on them and do some further contingency planning. I very much hope that you will be able to join that meeting and I will ask Marilyn Wolff to liaise with you on dates.

We will also need to meet to consider the collection of further funds in order to finance the so called feasibility study. I have already briefly spoken to Laurence Begner on this. I had hoped that further fund raising could be avoided until we had a decision in principle from Barnet. However, it does not appear that we will have this luxury.

Yours sincerely

Michael Goldmeier
