Dear Henry

ERUV

Further to our conversation today, please find enclosed a copy of the leaflet we used to brief the Barnet councillors and a copy of the poster which will be widely distributed in North-West London. As we discussed, our primary need is to bring pressure to bear on Councillor Barbara Langstone, a Conservative councillor in the Finchley ward. Her telephone number is 445 5443 and it would be most helpful if a delegation from your community could impress on Mrs. Langstone the strong feeling that exists and the need, particularly among the very young, the handicapped, the old and the frail. Please try and tie her down to a commitment to support the proposal at the Public Works Committee when it meets on 30th June. I would appreciate it if you could give me some feedback after your meeting with her.

Very warm regards to President Smith!

Many thanks

Yours sincerely

David Schreiber
