Dear David

I have seen Laurence Begner's letter to you dated 2 July 1992.

I, too, would wish to associate myself with the remarks he made concerning your assistance with the Eruv project. Although many people have played a role, it is my belief that your intervention was decisive, and I would like to thank you for all the hard work so far. Although there is some way yet to go, I am confident that we will have the Eruv before too long.

Yours sincerely

Michael Goldmeier
