Dear David

I acknowledge receipt of your memo dated 1st July and would comment as follows:-

- a) I have no amendments to your notes as I feel that they cover the salient points of the meeting.
- b) My only observations in respect of the Planning Committee at this stage is in relation to Edward Bunn, who I understand could well be the "Barbara Langstone" of this Committee. I would, in the interim, like to have a word with Jane Ellison in an attempt to try and "feel out" the ground. Please let me have your comments.
- c) Excellent.

Finally, I most certainly reiterate your feelings expressed in the second paragraph of your letter and, while I feel many have worked hard, no-one has put in as much enthusiasm and time as you have. I feel it important that it be recognised by all concerned.

I look forward to the next stage with great optimism and enthusiasm.

Kind regards

Yours sincerely
