MEMO:

15th September 1992

TO: Laurence Begner

As you can see from the attached, I am dealing with the Hampstead Garden Suburb situation although any ideas you may have would be most welcome. We got the letter writing campaign off while you were away and I think that is as much as can be done on that front for the moment. I would, however, really like your help on your speciality of personal Councillor lobbying. I enclose an updated chart on which I have ticked under the column marked 'P' the indication that we presently have. Do not be lulled by the total of nine because I think that some of them are shaky. Next to it, you will see a description of 'C' for Central or 'W' for Western for those Councillors who sit on the Planning Sub-Committees which will meet on 27th October. I do not expect trouble at those meetings, where they will be asked to send the Eruv application to the full Planning Committee of twenty on 11th November. However, to be safe, we must be sure of a majority on each in case we get ambushed in those sub-committee meetings. As you will see, on Central we seem in good shape but are more vulnerable on the Western meeting. Your friend, Jane Ellison, sits on that as does Julian Czarny. I suggest that I should try and set up a meeting with Julian Czarny who is totally committed whose advice I would like to hear. May I please rely on you to conduct a personal lobbying campaign as last time against a deadline of 27th October for the fourteen councillors and 11th November for the twenty?
