Re: **Public Works Approval**

I am thrilled to report that Public Works Committee has been obtained.

At its meeting on Tuesday October 27 the Barnet Public Works Committee approved the Eruv Licence Application by 13 votes to 1.

The next step is for us to obtain a similar licence from the Highways Agency with respect to trunk roads and to agree various details of implementation with the council officers.

It appears that the remaining phases before the earliest date on which construction can take place will still take some months. While it is important to emphasise to the community that this is a very positive development indeed, please try to ensure that members of the community, who have been patient for so long, do not have any false expectations that this latest approval means that the Eruv will be established in a matter of weeks.

Thank you all for your help thus far. I look forward to reporting further positive developments and to approaching you for assistance in various aspects of implementing the establishment of the Eruv over the coming months.

If you have any questions, please contact me on either 0171 246 6216 (office) or 0181 455-0454 (home).

E.B.B.
